1. **Recitals.** Assignor is a member of Assignee. Assignee is an Arizona company engaged in the business of developing traffic safety devices. Assignor has the right to assign the entire right, title, and interest in the Invention and desires to do so in exchange for consideration, and Assignee desires to acquire the entire right, title, and interest in the Invention and any patents or patent applications arising out of the Invention.
2. **The Invention.** The "Invention" means the subject matter disclosed in the utility patent application entitled Illuminated Traffic Control Paddle with inventor Brian K. Pitts, to be filed on or about June 18, 2014.
3. **Assignment.** In exchange for one dollar (\$1.00) and other valuable consideration, of which Assignor acknowledges receipt, Assignor hereby transfers and assigns to Assignee all of Assignor's right, title and interest that Assignor may have or acquire in the Invention and all patents and patent applications arising therefrom, filed, or to be filed in any and all countries, including all divisions, reissues, continuations, continuations-in-part, and extensions thereof, and all rights of priority resulting from the filing of patent applications. Assignor transfers and assigns the right and ability to apply for patents based on the Invention. Assignor authorizes and requests any official whose duty it is to issue patents to issue any patent to Assignee or its successors and assigns. Assignor agrees that on request and without further consideration but at the expense of Assignee, Assignor will communicate to Assignee any facts known to Assignor respecting the Invention or patents and patent applications arising therefrom and testify in any legal proceeding, sign all lawful papers, execute all original, divisional, continuing, and reissue applications, make all rightful oaths and generally do everything possible to aid Assignee in obtaining and enforcing patent protection in all countries.
4. **Term.** This Agreement shall remain in full force and effect for the enforceable life of any patents directed to the Invention.
5. **Representations and Warranties.** Assignor represents and warrants that Assignor has the entire right, title, and interest in the Invention and has the right to convey the entire right, title, and interest without limitation. Assignor represents and warrants that the entire right, title, and interest in the Invention is hereby transferred and assigned free and clear of any encumbrances.

8. **Arbitration.** Disputes not resolved by agreement of the parties arising out of this Agreement will be submitted to binding arbitration in metropolitan Phoenix, before a single arbitrator or, if the parties cannot agree upon a single arbitrator, before a panel of three arbitrators, one selected by each party (within 10 days after notice of a dispute and failure to agree upon a single arbitrator) and a third

The selection of arbitrators and all arbitration proceedings will be in accordance with the rules of the American Arbitration Association, as amended to the date of the proceedings, and judgment upon the award may be entered in any court having jurisdiction. The arbitrators must render a decision within 30 days after their appointment and may award the costs of arbitration as they see fit.

9. Reformation and Severability. If any section of this Agreement is deemed invalid or unreasonable by a court or arbitrator, such section shall be severable from the remainder of this Agreement, which shall be enforced according to its terms irrespective of the enforceability of the invalid or unreasonable section, provided such enforcement is consistent with the general intent of the Parties as evidenced by this Agreement as a whole.
