National Aeronautics and Space Administration

Patent Application

Assignment to Government Employee and License to the Government

WHEREAS, the parties to this Assignment are the undersigned inventor(s) and the United States Government (hereafter Government), as represented by the Administrator of the National Aeronautics and Space Administration (NASA);

WHEREAS, the invention identified below was made while the inventor(s) was a (were) Government employee(s) as defined in 37 CFR 501.3(c); and

WHEREAS, the Government desires to assign its rights in the invention to the inventors thereof in accordance with 15 U.S.C. 3710d(a), the invention being identified as:

Title of Invention: BOUNDARY LAYER TRIPS FOR DELAYING TRANSITION TO TURBULENT FLOW

NASA Case No.: LAR-18159-1

Inventor(s)/Applicant(s): REGINALD J. EXTON

Application Serial No.: 13/937,494

Application Filing Date: JULY 9, 2013

Patent No.:

Patent Issue Date:

Now THEREFORE, the Government hereby assigns the entire right, title and interest in and to said invention, including the patent application(s) and/or patent(s) identified above describing the invention, and any applications continuing therefrom and such Letters Patents as may issue therefrom, to the following inventor(s): REGINALD J. EXTON

FURTHER, the Government hereby retains, pursuant to 15 U.S.C. 3710d(a), a nonexclusive, nontransferable, irrevocable, paid-up license to practice the invention or have the invention practiced throughout the world by or on behalf of the Government.

The inventor(s) also agree(s) to include within the specification of any patent application and any patent, domestic or foreign, issuing thereon covering the invention the following statement: "The invention described herein was made by employees of the United States Government and may be manufactured and used by or for the Government of the United States of America for governmental purposes without the payment of any royalties thereon or therefor."

Date: June 20, 2014
