**ASSIGNMENT**

WHEREAS, Gilles Serge BianRosa, Olivier Chalouhi, Gregory Smeltzer, William Jiang and Christopher Vinckier (hereinafter the "Undersigned") have made one or more inventions and other subject matter (hereinafter collectively referred to as the "Invention") which are described in a patent application filed on November 8, 2012, which application was assigned US patent application serial number 13/672,426, and which is titled TOUCH-ENABLED REMOTE CONTROL; which are described in a patent application filed on January 10, 2012, which application was assigned US application serial number 13/347,401, and which is titled TOUCH-ENABLED REMOTE CONTROL.

all original and reissued patents which have been or shall be issued in the United States and all foreign countries and jurisdictions based in whole or in part on any of such Invention;

including the right to claim priority to the above-identified patent application or applications in relation to subject matter based in whole or in part on the above-identified patent application or applications and any of the foregoing including the right to file foreign applications under the provisions of any convention or treaty;
