ASSIGNMENT BY INVENTOR

This Assignment is by Nicholas Felmlee of 11 Old Acres Road, Saddle River, NJ 07458 (the "Assignor"). The Assignor has invented one or more certain inventions (the "Invention(s)") described in a Provisional Patent Application of the United States entitled "Real-Time Incident Control And Site Management" (the "Application"), filed on January 28, 2014, and assigned U.S. Provisional Patent Application No. 61/932,507.

SwiftReach Networks, Inc., having its principal place of business at 14 Industrial Avenue, Suite 4, Mahwah, NJ 07430 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that Assignor owns the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

IN TESTIMONY WHEREOF, Assignor has signed his name on the date indicated.

Date: 2/14/2014

Signature: Nicholas Felmlee
