ASSIGNMENT

Whereas, Michael L. McAnelly of 21850 Hoo Shoo Too Road, Baton Rouge, LA 70817, (hereinafter "Applicant"), has invented a new and useful method and/or device entitled "IMPROVED DEVICE AND METHOD FOR OPEN PHASE DETECTION" (hereinafter "Invention"), which was filed on April 25, 2014 as a nonprovisional patent application at the United States Patent and Trademark Office under serial number 14/262,267, on June 26, 2013 as a provisional patent application at the United States Patent and Trademark Office under serial number 61/839501, and on April 25, 2013 as provisional patent application at the United States Patent and Trademark Office under serial number 61/815873. Whereas, the Invention was invented by the Applicant jointly with Jeremy S. Davey, Randall P. Robert, Donald J. Norris, and Robert P. Bayly. Whereas, Power Control Systems, Inc., a Louisiana corporation (hereinafter "Assignee") located at 11311 Boardwalk Drive, Baton Rouge, Louisiana 70816, is desirous of acquiring the entire right, title, and interest in the invention; and

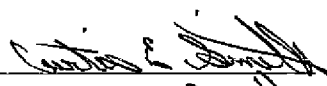

NOW, THEREFORE, in consideration of the sum of One dollar (\$1.00), the receipt of which is acknowledged, and other good and valuable consideration, I, the Applicant, by these presents do sell, assign, and transfer unto said Assignee the full and exclusive right to the Invention in the United States and in all foreign countries and the entire right, title, and interest in and to any and all patent applications, including the rights in any substitute, continuation, continuation-in-part, and divisional application, which may be filed and patents which may be granted therefore in the United States and in any foreign countries, including the right to claim priority rights for such foreign applications to which such applications are entitled under international conventions, treaties or otherwise, and any reissue or reexamination patents issued thereon. I hereby authorize and request the Commissioner of Patents and Trademarks to issue said United States Patent to said Assignee of the entire right, title, and interest in and to the Invention, for

Assignee's sole use and benefit and for the use and benefit of Assignee's legal representatives, to the full end of the term for which said Patent may be granted, as fully and entirely as the same would have been held by myself had this Assignment not been made. I hereby agree to execute any and all documents and to take any and all other further actions as reasonably requested by Assignee to transfer ownership of the Invention or to aid in the prosecution of the Invention through the United States Patent and Trademark Office including, but not limited to, the execution of an inventor's oath or declaration as required by the United States Patent and Trademark Office, assignments, transfers and related powers of attorney.

Executed this 13 day of JUNE, 2014 in Baton Rouge, Louisiana.
