ASSIGNMENT-STATEMENT BY INVENTORS
[JOINT-TO-CORPORATE ASSIGNMENT OF PATENT RIGHTS]

WHEREAS, the following named INVENTORS:

- (1) James Clay, a citizen of the United States of America, and resident of Cotati, California, having a mailing address of 8566 Lakewood Avenue, Cotati, California, 94931; and
- (2) Jesse Quiles, a citizen of the United States of America, and resident of South San Francisco, California having a mailing address of 110 Clay Avenue, South San Francisco, California, 94080;

(hereinafter collectively termed "Assigning Inventors");

Have jointly invented new and useful improvements in a foldable door stop, and are the named inventors in an application for a United States Utility Patent, disclosing and identifying the invention, said application identified as follows:

Title: **FOLDABLE DOOR STOP**

WHEREAS, the above application was made or authorized to be made by us (the persons executing this assignment-declaration of inventors);

WHEREAS, We believe that we are the original joint inventors of the claimed invention in the application;

WHEREAS, Craig M. Stainbrook, an attorney registered to practice before the United States Patent and Trademark Office, has been retained by said INVENTORS to prepare and file a U.S. utility patent application for said invention, and said INVENTORS do hereby authorize Craig M. Stainbrook to insert here in parentheses (Application number 14/253,617, filed 04/15/2014) the filing date and application number of said application when known; and

WHEREAS, CQ Innovations, (hereinafter termed "Assignee"), a general partnership formed in the State of California, and having a principal place of business of 8566 Lakewood Avenue, Cotati, California, 94931, wishes to acquire the entire right, title and interest in and to said application and the invention and/or inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered jointly or severally by said Inventor (all collectively hereinafter termed "said inventions"), and in and to any all patents, certificates of invention and other forms of protection thereon (hereinafter termed "patents")

applied for or granted in the United States and/or other countries.

NOW THEREFORE, for good and valuable consideration acknowledged by Inventors to have been received in full from as Assignee:

1. Inventors do hereby sell, assign, transfer and convey to said Assignee, the entire right, title and interest (a) in and to said applications and said inventions; (b) in and to all rights to apply in any or all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said inventions in the United States or any other country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all of said patents.

2. Inventors hereby covenant and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by Inventors shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specification, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefore and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement action and court actions; provided, however, that the expense incurred by said Inventor in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this Assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, his heirs, legal representatives and assigns.

4. Inventors do hereby warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the Inventors have executed this instrument on the date of acknowledgment as given below, and further acknowledges that any willful false statement made in this Assignment-Statement is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.
