WHEREAS, Vista Engineering Technologies, Inc. ("Vista Engineering"), a Washington corporation, purchased the aforesaid Patents and Patent Applications, together with related assets more particularly described in paragraph 1 below and in the Asset Purchase agreement, from S.A. Technology pursuant to an Asset Purchase Agreement.

NOW, THEREFORE

1. In consideration of good and valuable consideration, the receipt of which is acknowledged and set forth in the Asset Purchase Agreement, S.A. Technology has sold, assigned, transferred and set over to Vista Engineering the entire right, title and interest in and to the Patents and Patent Applications, together with and any reissues or extensions and for the entire terms of any patents, reissues, reexaminations or extensions that may issue from foreign

applications, divisions, continuations in whole or part or substitute applications filed claiming the benefit of the Patents and Patent Applications, including all common law rights therein and applications to register therefor, and together with all claims for damages by reason of past infringements of the Patents and Patent Applications, and all priority rights under all available International Agreements, Treaties and Conventions for the protection of the Patents and Patent Applications and inventions described therein in its various forms in every participating country, all national and regional applications deriving therefrom, and all applications for patents (including related rights such as utility-model registrations, inventor's certificates, and the like) heretofore filed for the inventions described in the Patents and Patent Applications in any foreign countries, and all patents (including all continuations, continuations-in-part, divisions, extensions, renewals, substitutes, and reissues thereof) granted for said inventions in any foreign countries.

2. S.A. Technology hereby authorizes and requests the United States Commissioner of Patents and Trademarks, and any officials of foreign countries whose duty it is to issue patents on applications as aforesaid, to issue all patents for said improvements to Vista Engineering in accordance with the terms of this Assignment.

3. S.A. Technology shall do, execute, acknowledge and deliver all such further assignments, transfers and assurances, and take such other actions, upon reasonable request of Vista Engineering that may be necessary or desirable to assure, confirm or evidence the right, title and interest of Vista Engineering in and to the Patents and Patent Applications.
