PATENT ASSIGNMENT

For \$1.00 and other consideration, the receipt and sufficiency of which we acknowledge, we have assigned and do hereby assign to:

Sp1ke Inc.
82 Elmhurst Avenue
Toronto, ON M2N1R6

all our right, title and interest in and to the invention(s) described and/or claimed in
Canadian patent application no. 2,666,411, filed May 20, 2009,
entitled **ENERGY ABSORPTION AND DISTRIBUTION MATERIAL,**

and to any and all patents and patent applications of the United States, Canada and any other country, region or territory worldwide, including any international patent applications, that may be applied for or granted for the invention(s); and in and to any and all divisions, continuations, continuations-in-part of said applications, and reissues, renewals and extensions of said letters patent or patents; and to all rights of action, power, and benefits belonging or accrued to the assignor in respect of the invention(s) and any of the foregoing patent applications or patents, including the right to take action and collect damages with respect to infringements occurring prior to the date hereof, including without limitation US Patent Application No. 12/470,379.

Without further consideration, but at the expense of the assignee, its successors or assigns, we undertake to do such things and sign such documents as are required to fully vest title to the invention, and any patents to issue for the invention, whether from the application referred to above, another application, a division or reissue, or other wise, in the assignee, its successors or assigns.
