## ASSIGNMENT OF PATENT RIGHTS

WHEREAS, IntegriCo Composites, Inc. (hereinafter "Assignor"), is the owner of record of the entire right, title and interest in and to each of the United States, PCT and foreign patents and patent applications listed on *Exhibit 1* attached hereto (the "Listed Patents").

WHEREAS, DisperSol Technologies, LLC (hereinafter "Assignee") is acquiring Assignor's entire present and future right, title, and interest in, to, and under the Listed Patents, which includes any children applications thereof, including any divisional, continuing, continuation-in-part, substitute, renewal, improvement, extension, reissue, reexamination and other patent applications thereof, under the terms of an Amendment 2 to a Patent License Agreement, dated January 9, 2008, between DisperSol Technologies, LLC and Resyk, Inc. (IntegriCo Composites, Inc. acquired Resyk Inc.) (the "Agreement").

NOW THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby sell, assign, transfer, and set over to Assignee, Assignor's entire right, title, and ownership interest in and to said Listed Patents, and any inventions claimed in said Listed Patents, which includes any applications and/or patents claiming benefit of the filing date of any such Listed Patents, including, without any limitation, any continuations, continuations-in-part, divisions, extensions, improvements, amendments, conversions, substitutes, renewals, restorations, reissue or reissues, or any other patent applications thereof, already granted and which may be granted, any certificates of reexamination already granted and which may be granted, and specifically including the right to file national stage applications under the provisions of any applicable convention or treaty to any of such Listed Patent, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives, to the end of the term or terms for which said Listed Patents are or may be granted, reissued, or extended as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

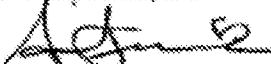

Assignor covenants, when requested and at the expense of Assignee, to carry out in good faith the intent and purpose of this Assignment. To the extent requested by Assignee, Assignor will execute all divisional, continuing, continuation-in-part, substitute, renewal, improvement, extension, reissue, reexamination and other applications for patent on any and all such Listed Patents; execute all rightful oaths, declarations, assignments, confirmatory deeds of assignment, powers of attorney and other papers related to the Listed Patents; communicate to Assignee all facts known to Assignor relating to such Listed Patents and the history thereof, and generally do everything possible which Assignee shall consider desirable for securing, maintaining and enforcing such Listed Patents and for vesting title to such Listed Patents in Assignee.

Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks and the patent office of any applicable country to issue any and all patents on said inventions and Listed Patents to Assignee as assignee of Assignor's entire right, title and interest, and hereby covenants that Assignor has full right to convey Assignor's entire right, title and interest herein assigned, and that, except, as otherwise provided between the parties, Assignor has not executed, and will not execute, any agreements in conflict therewith.

IN WITNESS WHEREOF, the parties, by their duly authorized representatives, have executed this Assignment.
