Exhibit C

PATENT ASSIGNMENT

WITNESSETH

WHEREAS, on 19 April 2013, Sensovation A.G., having a place of business in Radolfzell, (hereinafter "Assignor"), filed an Application for Patent in Germany (Patent Application No. DE102013103971.5), disclosing and claiming a certain technique for generating a composite image of an object composed of multiple sub-images (the "German Priority Application"); and

WHEREAS, Sakura Finetek U.S.A., Inc., having a place of business in Torrance, California U.S.A. (hereinafter "Assignee") desires to acquire all of Assignor's rights, title and interests in the German Patent Application No. 102013103971.5, filed on 19 April 2013, any invention disclosed therein (hereinafter "Invention") and in any and all patents that may be granted on such application; and

WHEREAS, Assignor and Assignee are parties to that certain agreement titled "Agreement to Assign Patent Rights and License Back," pursuant to which Assignor has agreed to assign to Assignee, subject to the terms and conditions of said Agreement, all of its rights, title and interests in and to (i) the Invention; (ii) German Patent Application No. 102013103971.5; (iii) all other patent applications that shall be filed in Germany and all member countries of the Patent Cooperation Treaty (hereinafter "PCT") on the Invention, including but not limited to utility design, utility model, divisional, continuing, continuation-in-part, substitute, renewal and national phase applications on the Invention (hereinafter collectively "Related Applications"); and (iv) any and all patents that may be granted on German Patent Application 102013103971.5 and granted on Related Applications; and

WHEREAS, this instrument of assignment is the means by which Assignor is fulfilling its above-noted legal obligation to assign to Assignee German Patent Application No. 102013103971.5, the Invention, all Related Applications that shall be filed on the Invention and all patents that may be granted on German Patent Application No. 102013103971.5, and granted on Related Applications.

NOW, THEREFORE, for good and valuable consideration the receipt and adequacy of which are hereby acknowledged, Assignor does hereby unconditionally fully and forever sell, assign, convey and transfer unto Assignee, its successors, assigns and legal representatives, its full and entire rights, title and interests in and to the Invention, German Patent Application No. 102013103971.5, all Related Applications and all patents that may be granted on German Patent Application No. 102013103971.5 and granted on Related Applications, including but not limited to any reissue, reexamination or renewal of any such patent, for its own use and enjoyment and for the use and enjoyment of its successors, assigns, licensees and legal representatives, to the end of the term of each of such patents, as fully and entirely as the foregoing would have been held and enjoyed by Assignor had the within assignment not been made.

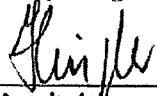

Assignor hereby agrees to execute and have executed any and all further documents, and to do any and all additional things reasonably required to effectuate the within assignment, for and at the request of Assignee, without any charge or cost to Assignee.

Assignor hereby agree that Assignee shall have right to record this instrument of assignment in the German Patent Office, so as to establish Assignee, as the owner of record of German Patent Application No. 102013103971.5, the Invention, and any patents that may be granted thereon in Germany.
