WHEREAS, I, having a post office address that follows my name: Holger Starke, Winterleitenweg 20, 97261 Guentersleben, Germany (hereafter referred to as ASSIGNOR), am the sole inventor of an invention described and claimed in the specification forming part of the United States patent application "Separating Radioactive Contaminated Materials from Cleared Materials Resulting from Decommissioning a Power Plant," executed herewith;

WHEREAS, Babcock Noell GmbH (hereafter referred to as ASSIGNEE), a limited liability company organized under the laws of Germany and having a place of business at Alfred-Nobel-Strasse 20, 97080 Wuerzburg, Germany, is desirous of acquiring the entire right, title, and interest in and to the invention and in and to any letters patents that may be granted therefor in the United States and in any and all foreign countries;

NOW, THEREFORE, in exchange for good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby sells, assigns, and transfers unto said ASSIGNEE, the entire right, title, and interest in and to said invention, said application and any and all letters patents which may be granted for said invention in the United States of America and its territorial possessions and in any and all foreign countries, and in any and all divisions, reissues, and continuations thereof, including the right to file foreign applications directly in the name of ASSIGNEE and to claim priority rights deriving from said United States application to which said foreign applications are entitled by virtue of international convention, treaty, or otherwise, said invention, application and all letters patents on said invention to be held and enjoyed by ASSIGNEE and its successors and assigns for their use and benefit and of their successors as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this assignment, transfer, and sale not been made. ASSIGNOR hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue all letters patents on said invention to ASSIGNEE. ASSIGNOR agrees to execute all instruments and documents required for the making and prosecution of applications for United States and foreign letters patents on said invention, for litigation regarding said letters patents, or for the purpose of protecting title to said invention or letters patents therefor.
