## ASSIGNMENT

We, the undersigned individuals, have invented a **METHOD OF PREPARING ZINC OXIDE NANORODS ON A SUBSTRATE BY CHEMICAL SPRAY PYROLYSIS**, (Atty Dkt. No. KOP019-CON) and having on the 16<sup>th</sup> day of January, 2014, executed applications for patent as inventors, (and we hereby authorize our attorney to prosecute said application and to here insert the filing date and serial number of said application when known, US Application Serial No. 13/851266, filed on the 27 day of March, 2013) describing the same and based thereon, for good and valuable consideration, receipt of which is hereby acknowledged from **NanoSol Energy OÜ, Kütise 15-7, Saue, Harju, Estonia**, hereinafter called Assignee (which term shall include its successors and assigns) do hereby sell, assign and transfer unto Assignee our entire right, title, and interest as inventors, in and throughout the United States of America (including its territories and dependencies), in and to and under said application (which term shall include hereinafter where the context so admits all divisional, continuing, reissue and other patent applications based thereon) and the inventions (which term shall include each and every such invention, or any part thereof) therein described, and any and all patents and like rights of exclusion (including extensions thereof) which may be granted on or for said inventions or on said application;

And for the same consideration we do hereby agree for ourselves and for our respective heirs, executors and administrators, promptly upon request of the Assignee, to execute and deliver without further compensation any power of attorney, assignment, original, divisional, continuing, reissue or other application or applications for patent or patents or like rights of exclusion in, or other lawful documents and any further assurances that may be deemed necessary or desirable by Assignee to fully to secure to it our said right, title, and interest as aforesaid in and to said inventions, application, and said several patents and like rights of exclusion, or any of them;

And we do hereby authorize and request the Commissioner of Patents of the United States of America to issue to the Assignee any and all patents and like rights of exclusion which may be granted upon said application or on or for said inventions;

And we do hereby covenant for ourselves and for our respective legal representatives and agree with Assignee that we have granted no right or license to make, use or sell said inventions in the United States of America to anyone except the Assignee, that prior to the execution of this deed our right, title and interest in and to said inventions as the inventor has not been otherwise encumbered, and that we have not executed and will not execute any instrument in conflict herewith.
