ASSIGNMENT

WHEREAS, Donald Allen Gilmore of 1920 Wyandotte St., Suite 2, Kansas City MO 64108 ("Assignor"), has invented certain new and useful improvements for a *Piano String Tuning Using Inductive Current Pumps and Associated Method of Use* for which Assignor has executed an application for Letters Patent in the United States identifying Assignor as the sole inventor thereof (said application being identified as Thompson Coburn LLP, Docket 57100-131642); and

WHEREAS, Don Gilmore Devices, LLC, a corporation of the State of Missouri, having its principal office and place of business at 1920 Wyandotte St., Suite 2, Kansas City MO 64108 ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said invention and improvements as disclosed in said application, in and to said application, and in and to the patent to be obtained thereon.

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of all of which are hereby acknowledged, Assignor, hereby assigns and transfers unto said Assignee, its successors or assigns, the entire right, title and interest in and to said invention and improvements as the same are disclosed in said application which was executed by Assignor herewith preparatory to filing for Letters Patent, in and to said application, and in and to any and all Letters Patent and applications filed therefor, including provisionals, non-provisionals, divisionals, continuations, continuations-in-part, reissues, reexaminations and extensions to be obtained therefor in the United States and all foreign countries, including all priority rights and all rights to claim priority; and Assignor further agrees to cooperate with Assignee hereunder in the obtaining and sustaining of any and all such Letters Patent as Assignee may desire to apply for, but at the expense of said Assignee.

The Commissioner of Patents or other proper official is hereby authorized and requested to issue said Letters Patent to Assignee in accordance with this Assignment.

The undersigned hereby authorizes and requests the attorneys of record in said application(s) to insert in this Assignment the serial number, filing date, and date of execution of said application(s).

For said considerations, Assignor hereby agrees, upon the request and at the expense of Assignee, to execute any provisional, non-provisional, divisional, continuation, continuation-in-part or substitute application for said invention or improvements, and any oath or affidavit relating thereto, and

any application for the reissue or extension of any Letters Patent that may be granted upon said application(s), and, in the event of any application or Letters Patent assigned herein becoming involved in any derivation proceeding, interference, or third party challenge, to cooperate to the best of the ability of Assignor in the matters of preparing and executing any petition, affidavit, or other document relating thereto and giving and producing evidence in support thereof. Assignor agree to perform, upon request, any affirmative acts to obtain said Letters Patent of the United States or foreign country and vest in said Assignee all rights therein, whereby said Letters Patent will be held and enjoyed by Assignee, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

And for said consideration, Assignor hereby assigns to Assignee the entire right, title and interest in said invention or improvements for all foreign countries, including all priority rights, and agrees to execute, at the request of Assignee, all documents in connection with any application for foreign Letters Patent therefor.
