ASSIGNMENT OF INVENTION(S), PATENT APPLICATION(S) AND/OR PATENT(S)

We, **PETRA REED and JAMES P. REED** (hereinafter designated as the Assignors), in consideration of good and valuable consideration paid to us, agree to assign, and hereby do assign, transfer and set over to PEDESTAL DESIGNS, INC., an Idaho corporation (hereinafter designated as the Assignee), which is the Surviving Entity of the Merger dated December 2, 2013 with Pedestal Designs, Inc., a California corporation, and has mailing address of P.O. Box 170171, Boise, Idaho (ID), 83717, the entire right, title and interest in and to the invention known as "**BLOCK PEDESTAL**," for which a non-provisional application was filed in the United States Patent and Trademark Office on February 27, 2012 and given Serial No. **13/385,637**, which is a Divisional Application of Serial No. 11/732,215 issued as Patent 8,127,696 that claims benefit of Provisional Application 60/789,548, filed April 4, 2006, which patent applications, issued patent, and any resulting patent(s) are also hereby assigned, transferred, and set over to Assignee. We also agree without further consideration to assign, and hereby do assign, any and all future U.S. design and utility patent applications (including provisional, non-provisional, continuation, continuation-in-part, and divisional applications), PCT or other foreign country applications, National Phase applications and re-examination and/or reissue application(s)/patent(s) claiming priority of the above-identified application(s). We hereby give the law office of Pedersen & Company, PLLC permission to fill in the filing dates and the serial numbers, when known, of said filed and future U.S. design and utility patent applications, PCT or other foreign country applications, National Phase applications, etc.:

1) We agree without further consideration to execute all papers necessary or convenient in connection with each application to protect the invention, and any continuation, continuation-in-part, or divisional applications and any related PCT or other foreign country applications, National Phase applications, etc., thereof, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

2) We agree without further consideration to execute all papers necessary or convenient in connection with any interference, re-examination, reissue or other post issue proceeding which may be declared concerning any application(s)/patent(s) relating to the invention, or any continuation, continuation-in-part, or division and any related PCT or other foreign country applications, National Phase applications, etc., thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with any such proceedings.

3) We agree without further consideration to execute all papers and documents and perform any act which may be necessary or convenient in connection with any related application(s)/patent(s) in or from any foreign patent offices, including those operating under the Patent Cooperation Treaty (PCT), International Convention for Protection of Industrial Property, or similar treaties or agreements.

4) We agree without further consideration to perform all affirmative acts, and communicate to said Assignee or its representatives any facts known to us regarding said invention, and generally to do everything possible which may be necessary or convenient to obtain grants of valid patents to the Assignee relating to the invention.

5) We hereby authorize and request the United States Commissioner of Patents and Trademarks, and all equivalent foreign patent office officials, to issue any and all Letters Patents resulting from said applications or any continuation, continuation-in-part, or divisional applications and any related PCT or other foreign country applications, National Phase applications, etc., thereof, to the said Assignee, as Assignee of the entire interest, and hereby covenant that we have full right to convey the entire interest herein assigned, and that we have not executed, and will not execute, any agreement in conflict herewith.

6) We hereby grant the Assignee and its duly authorized representatives the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, and any foreign patent office, regarding any related application or patent, for recordation of this document.

NOW THEREFORE, Assignors hereby forever transfer and assign unto Assignee all right, title, and interest, in and to the subject invention(s) and application(s)/patent(s); the same to be held and enjoyed by Assignee, its heirs, successors, assigns, and legal representatives, as completely as if the inventions would have been held by Assignors had this assignment not been made, including the right to sue for past infringements.
