PATENT ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned hereby assigns to Arcanum Alloy Design, Inc. a Delaware corporation (hereinafter "Assignee"), its successors and assignees, the entire right, title and interest in inventions or improvements thereof that the undersigned created, made, conceived, invented, developed, discovered or reduced to practice during the performance of the undersigned's duties on behalf of the Assignee. The assigned right, title and interest include the inventions or improvements thereof disclosed in patent application(s), and in any other applications, in the United States and in other countries, which the undersigned may file or be named as an inventor, either solely or jointly with others, and any and all patents issued in the United States and other countries, which may be obtained on any of said applications, and in any reissue or extension thereof.

The undersigned warrants himself to be the owners of the interest herein assigned and to have the right to make this assignment and further warrants that there are no outstanding prior assignments, licenses, or other rights in the interest herein assigned except in favor of Assignee.

IN WITNESS WHEREOF, the undersigned executed this Assignment on this __25th__ day of __February__, 2013__.

A handwritten signature in black ink, appearing to read 'Joseph E. McDermott', is written over a horizontal line.
