ASSIGNMENT OF PATENT RIGHTS

This ASSIGNMENT OF PATENT RIGHTS (the "Assignment") is made by and between Russell Kevin Huffman (as "Inventor") and E3 Embedded Systems, LLC, a limited liability company registered under the laws of the State of Georgia ("Assignee"). Inventor and Assignee may together be referred to herein as the Parties, or individually as a Party.

RECITALS

WHEREAS,

Russell Kevin Huffman
2709 Wellington Drive
Augusta, Georgia 30909

is the inventor of the invention entitled "Method and Apparatus for the Processor Independent Embedded Platform" as described and claimed in International Application Number PCT/US14/19462, filed February 28, 2014 (the "Application");

WHEREAS, Assignee has a place of business at:

2717 Wellington Drive
Augusta, Georgia 30909

and is desirous of acquiring the entire right, title and interest in and to the above Application, and the inventions disclosed therein, including improvements ("the Inventions"), and in and to all embodiments of the Inventions heretofore conceived, made or discovered by said Inventor, and in and to any and all patents issuing from the Application (the "Patents"), including any patents that may issue from any future continuation applications, CIP applications, divisional applications, or reissue patents that issue from the Application or the Patents, as may be granted in any and all countries and group of countries; and

WHEREAS, Inventor intends to assign said rights to Assignee.

NOW, THEREFORE, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventor hereby assigns, sells, and conveys to Assignee the full and exclusive right, title and interest (a) in and to said Application and said Inventions; (b) in and to all rights to apply for patents on said Inventions in any and all countries pursuant to the International Convention for the Protection of Industrial Property, Patent Cooperation Treaty, or otherwise; (c) in and to any and all applications filed and any and all Patents granted on said Inventions in any and all countries and groups of countries, including each and every application filed and each and every Patent granted on any application which is a division, substitution,

continuation or CIP of said Application; (d) any improvements to the Inventions conceived of by the Inventor during the term of his employment, consultation or affiliation with Assignee; and (e) in and to each and every reissue or extension of any of said Patents.

2. Said Inventor hereby covenants and agrees to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest to said Application and Inventions herein conveyed in any and all countries and groups of countries. Such cooperation by said Inventor shall include prompt production of pertinent facts and documents, giving testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting the Application and any of said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said Inventions; (d) for filing and prosecuting applications for copyright registration of the artistic works embodied in the inventions; (e) for interference, derivation, or other priority proceedings involving said Inventions; and (f) for legal proceedings involving said Inventions and any applications therefor and any Patents granted thereon, including without limitation post grant review, infringement actions and court actions; provided, however, that the reasonable expenses incurred by said Inventor in providing such cooperation shall be paid by Assignee.

3. The term and covenants of this agreement shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, and said Inventor's respective heirs, legal representatives and assigns.

4. Inventor grants his attorney including attorneys of Baker, Donelson, Bearman, Caldwell & Berkowitz P.C. associated with Customer Number 49841 the power to insert in this Assignment any further identification or information which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office (or any foreign patent office) for recordation of this document.

5. Inventor hereby warrants and represents that he has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Inventor has executed and delivered this instrument to said Assignee on the date indicated below.
