#### EXHIBIT C-1

## ASSIGNMENT OF PATENT RIGHTS

THIS ASSIGNMENT OF PATENT RIGHTS (the "Assignment") is executed, acknowledged and delivered by Exbiblio B.V., a private company with limited liability (besloten vennootschap met beperkte aansprakelijkheid) formed under the laws of the Netherlands with its principal place of business at Post Office Box 2708, Seattle WA 98111-2708, United States of America ("Assignor"), in accordance with, and pursuant to the terms and conditions of the Patent Purchase Agreement having an Effective Date of December 22, 2010 (the "Agreement") between Assignor, as Seller and Google Inc., a Delaware corporation, with its principal place of business at 1600 Amphitheatre Parkway, Mountain View, CA 94043, United States of America ("Assignee"). Capitalized terms used herein and not expressly defined shall have the meaning ascribed to such terms in the Agreement.

"Listed Patents" means the provisional patent applications, patent applications, and patents listed on Exhibit A.

"Patents" means, all (a) Listed Patents; (b) patents or patent applications (i) to which any of the Listed Patents claims priority, (ii) for which any of the Listed Patents forms a basis for priority, (iii) that were co-owned applications that incorporate by reference, or are incorporated by reference into, the Listed Patents, and/or (iv) which are subject to a terminal disclaimer with any of the Listed Patents; (c) reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, divisions, and registrations of any item in any of the foregoing categories (a) and (b); (d) foreign patents, patent applications and counterparts relating to any item in any of the foregoing categories (a) through (c), including, without limitation, certificates of invention and utility models; (e) any items in any of the foregoing categories (b) through (d) whether or not expressly listed as Listed Patents and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like; and (f) any provisional patent application, patent application, patent and/or invention disclosure that is (i) owned by Seller, (ii) assigned to Seller, and/or (iii) subject to an obligation of assignment to Seller, whether or not included in any of the foregoing categories (a) through (e).

"Disclosures" means all inventions, invention disclosures, and/or discoveries, for which (a) none of the forgoing have been described in or included in a patent application (in any country or jurisdiction) filed by Seller prior to the Effective Date and (b) are any of (i) owned by Seller, (ii) assigned to Seller, or (iii) subject to an obligation of assignment to Seller, as of the Effective Date.

## NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN:

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor agrees to and does hereby irrevocably sell, assign, transfer and convey unto said Assignee, and Assignee hereby accepts, all of Assignor's right, title, and interest (i) in and to the Patents, the same to be held and enjoyed by said Assignee for its own use, and for the use of its successors, assigns, or other legal representatives to the end of the term or terms for which said Patents may be granted as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made; (ii) in and to causes of action and enforcement rights for the Patents including all rights to pursue damages, injunctive relief and other remedies for past and future infringement of the Patents; (iii) to apply in any and all countries for the world for patents; certificates of invention or other governmental grants for the Patents; (iv) in and to all inventions, invention disclosures, and discoveries described in any of the Disclosures; (v) in and to all rights to apply in any or all countries of the world for patents, certificates of invention and utility models, claiming any inventions, invention disclosures, and discoveries described in

any of the Disclosures; (vi) causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, any of the rights described in the foregoing subsection (v), including, without limitation, all causes of action and other enforcement rights for (1) damages, (2) injunctive relief, (3) any other remedies of any kind for past, current and future infringement, and (4) rights to collect royalties or other payments under or on account of any of the foregoing. Assignor also hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents or certificates of invention which may be granted upon any of the Patents or Disclosures in the name of Assignee, as the assignee to the entire interest therein.

Notwithstanding anything to the contrary herein, Assignor is executing and delivering this Assignment in accordance with and subject to all of the terms and provisions of the Agreement. In the event of any conflict between the terms of this Assignment and those of the Agreement, the terms of the Agreement shall be controlling.

This Assignment shall be binding upon and shall inure to the benefit of the parties and their respective successors and assigns.

This Assignment shall be governed by, and construed in accordance with, the laws of the United States in respect to patent issues and in all other respects by the laws of the State of California, without giving effect to the conflict of laws rules thereof.

The following exhibit is attached hereto and incorporated herein: Exhibit A (entitled "Listed Patents").

IN WITNESS WHEREOF, Assignor has caused this Assignment to be executed as of

this 5th day of January, 2011.
