ASSIGNMENT

Pursuant to my obligation to **Bosch Automotive Service Solutions LLC**
(hereinafter referred to as "Assignee"), having its principal place of business at:

**28635 Mound Road
Warren, MI 48092**

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged,

I:

**Thomas Jonathan Jaite
37861 Milann Drive
Willoughby Hills, Ohio 44094**

confirm my obligation to and hereby sell, assign and convey, unto Assignee, its successors
and assigns, except as set forth below, my entire right, title and interest

(1) in and to an invention entitled "**SCAN TOOL PACKAGING**" for which I have
executed a United States patent application on even date herewith, said United States
application being assigned U.S. Serial No. **29/480,649** filed **January 28, 2014** (I hereby
authorize Assignee to insert the serial number and filing date in the preceding blanks);

(2) in and to said United States patent application, in and to all other patent
applications (including divisional, continuation, continuation-in-part, §111(b) provisional,
§111(a), reissue applications, and international patent applications designating the United
States) based upon said invention, and in and to the patent or patents to be granted thereon,
including reissues thereof, if any, to the full end of the term or terms for which said patent or
patents may be granted; and

(3) in and to all patent applications on said invention now or hereafter filed in
countries foreign to the United States of America, including patent applications filed under
the Patent Cooperation Treaty, the European Patent Convention or any other international
treaty, and including the right to claim priority of said United States application, and in and to

treaty, and including the right to claim priority of said United States application, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted.

I hereby agree that I will, upon demand of Assignee, its successors or assigns, and without further consideration to me, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by me.

The foregoing notwithstanding, and in recognition of the fact that Assignee is part of the Bosch group of companies, I hereby assign to Robert Bosch GmbH, a German corporation having a mailing address at Postfach 30 02 20, D-70442 Stuttgart, GERMANY, the limited right to be named as assignee or applicant at the time of publication and at the time of issue on any applications or patents granted as referred to in foregoing paragraphs (2) and (3). If the right applicable to any such patent application allows an assignee to be the applicant of the patent application, Robert Bosch GmbH shall have the right to be identified as applicant of the patent application and the right to claim priority of said United States application. This limited right granted to Robert Bosch GmbH with respect to any patent application or granted patent shall expire upon the first-occurring of (i) assignment to a third party of any of the above-mentioned rights of Assignee, or (ii) with respect to any particular patent, issue of such patent, and shall be subsequently part of the assignable rights of Assignee. All other rights to said invention, said applications and said patents, U.S. or foreign, including the right under any of said patents to manufacture, import, use, sell or offer for sale the invention covered by said patents, or to license or permit use of said invention,
