PATENT APPLICATION ASSIGNMENT OF RIGHTS

Gerhard Fildan and Karl Wanzenböck, ("Assignors") are owners of the following inventions, as described in the U.S. Patent Applications signed by Assignors, and filed in the U.S. Patent and Trademark Office on the listed filing dates: (the "Patent Applications").

<u>Title of Invention</u>	<u>US App. No.</u>	<u>Filing Date</u>
CLOSURE FOR FULL FIGURE BRASSIERES	62/020,435	03-Jul-2014
TRIANGULAR GARMENT CLOSURE	29/496,567	15-Jul-2014

Dubrosky & Tracy Patent Service Corp., ("Assignee") desires to acquire all rights in and to the Patent Applications and the patents (and any reissues or extensions) that may be granted.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignors assign to Assignee 100% of their right, title, and interest in the inventions and Patent Applications (as well as such rights in any divisions, continuations in whole or part, or substitute applications) to Assignee for the entire term of the issued Patents and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Applications.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Applications to Assignee according to the percentage interest indicated in this assignment. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignors had this assignment not been made.

Assignors further agree to: (a) cooperate with Assignee in the prosecution of the Applications and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patents for the invention in any and all countries.
