## PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT (this "Assignment") is made as of May 16th, 2014 (the "Effective Date"), by and between ConAgra Foods Food Ingredients Company, Inc., a Delaware corporation ("Assignor"), and CF AM Holding, LLC, a Delaware limited liability company ("Assignee").

Assignor is the owner of the entire right, title, and interest in, to, and under the Patent Rights; and

Assignee, at its request and direction, wishes to acquire and Assignor wishes to assign all of Assignor's right, title, and interest in and to the Patent Rights.

For good and valuable consideration (including the premises and covenants set forth in the Contribution Agreement), the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignor hereby irrevocably sells, assigns, transfers, and sets over to Assignee all of Assignor's right, title, and interest in and to the United States and foreign patents and patent applications listed on Schedule A and any foreign counterparts or equivalents thereto, existing now or in the future that claim priority to such patents and patent applications on Schedule A including, but not limited to, patents of utility, improvement, or addition, utility model and appearance and industrial design patents and inventors certificates, as well as divisionals, reissues, continuations (in whole or in part), renewals and extensions of any of the foregoing, and any patents that may issue from any of the foregoing (collectively, the "Patent Rights"), including the subject matter of all claims that may be obtained therefrom, for Assignee's own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made, together with all income, royalties, damages, or payments due or payable as of the Effective Date or thereafter related to any of the foregoing, including, without limitation, all claims for damages by reason of past, present, or future infringement or other unauthorized use of the Patent Rights, with the right to sue for and collect the same for Assignee's own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

2. Assignor authorizes and requests the United States Commissioner of Patents and Trademarks and any other similar government authority to record Assignee as owner of the Patent Rights and issue any and all patents issued thereon to Assignee, as assignee of the entire right, title, and interest in, to, and under the same, for the sole use and enjoyment of Assignee and its successors, assigns, or other legal representatives.
