## CONFIRMATORY ASSIGNMENT OF RIGHTS IN INVENTION(S)

We:

Todd N. McAllister of 109 San Anselmo Ave, San Anselmo, CA 94960, USA; and  
Nicolas L'Heureux of 20 Edgewood Way, San Rafael, CA 94901, USA,

Affirm that:

We executed an Assignment of rights in inventions on October 28, 1999, a copy of which is attached hereto ("October 28, 1999 Assignment" hereinafter);

Whereas the October 28, 1999 Assignment does not identify a patent or patent application by serial number, filing date, or title, We now duly confirm that the patent application referenced in the October 28, 1999 Assignment is U.S. Pat. App. no. 09/444,520, filed November 22, 1999, now U.S. Pat. No. 6,503,273 ("the '273 Patent" hereinafter);

We now duly confirm that We have assigned *nunc pro tunc*, effective October 28, 1999, to Cytograft Tissue Engineering, Inc., a Corporation of California having a place of business at: 3 Hamilton Landing, Suite 220, Novato, CA 94949, USA, and its successors and assigns (collectively hereinafter the "ASSIGNEE") the entire right, title and interest throughout the world in the invention(s) which is/are disclosed and claimed in the '273 Patent,

and We now hereby assign to ASSIGNEE any residual rights in the invention(s) which is/are disclosed and claimed in the '273 Patent, this assignment including:

The '273 Patent, and any and all United States and foreign patents, utility models, and design registrations which may be applied for and granted for any of said invention(s) and improvement(s) thereof, and in and to any and all divisions, continuations, continuations-in-part, reissues thereof, certificates of re-examination, supplemental protection certificates, patent term restorations, and patents of addition, in any country, that may be based thereon, (collectively, "the PATENTS") including but not limited to:

U.S. Pat. App. no. 10/210,952, filed August 1, 2002, now U.S. Pat. No. 7,112,218;  
and

U.S. Pat. App. no. 11/467,519, filed August 25, 2006, now U.S. Pat. No. 7,744,526;

the right of ASSIGNEE to claim priority based on the filing date of the '273 Patent in the United States of America, under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes, including without limitation all rights in an international application claiming benefit of priority to the '273 Patent, and all rights, privileges and advantages appertaining thereto, including any and all provisional rights, said international application having serial no. PCT/US00/42239 and an international filing date of November 22, 2000;

the right of ASSIGNEE to enforce and to license, and to collect damages, profits or recoveries of any nature for past or future infringement of the PATENTS;

the right of ASSIGNEE to prosecute, with the assistance of competent counsel, any of the PATENTS in any jurisdiction worldwide; and

the right of ASSIGNEE to apply in all countries in our names or in its own name for the PATENTS;

the same to be held and enjoyed by the ASSIGNEE for its own use and behalf and for the use and behalf of its successors, legal representatives and assigns, absolutely during the residue of the respective terms for which the United States and foreign patents will be granted, and for any and all rights extending from the PATENTS, and entirely as the same would have been held and enjoyed by us had this assignment not been made;

We hereby covenant that We have full right to convey the entire interest herein being assigned, and represent that We have not executed and will not execute: any assignment of rights to the PATENTS between October 28, 1999 and the last dated signature herein; and any agreement inconsistent with this Assignment or to the detriment of the patents and patent applications being assigned hereby;

And, We agree for us, and our respective heirs, legal representatives and assigns, without further compensation to perform such lawful acts and to sign such further applications, assignments, Declarations and other lawful documents as ASSIGNEE may reasonably request to effectuate fully this Assignment.
