## ASSIGNMENT

1. I, Geoff Granum, of Portland, Oregon, together with David Whitlock, Guy Gascoigne-Piggford, and Mark Petrie, have invented certain inventions, as described in U.S. Patent Application No. 13/235,189, filed on September 16, 2011, entitled "Methods and Apparatus for Remediation Workflow" (hereinafter the "patent application").

2. Tripwire, Inc., a corporation organized under the laws of the State of Delaware, having a place of business at 101 SW Main Street, Suite 1500, Portland, Oregon 97204, desires to acquire an interest therein.

3. For one hundred dollars (\$100) and the wages paid by Tripwire, Inc. during my employment with Tripwire, Inc., the receipt of which is hereby acknowledged, I, Geoff Granum, hereby irrevocably and for no additional consideration sell, assign, and transfer to Tripwire, Inc., all of my rights, title, and interest in and to the inventions, the patent application, and patent rights for the inventions throughout the world, including foreign and domestic patent priority rights, the right to file and prosecute International Applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; the inventions, the patent application, and letters patent in this or any foreign country, and all corresponding non-provisional applications, divisions, continuations, continuations-in-part, reissues, and extensions thereof, to be held and enjoyed by Tripwire, Inc., for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted in the United States or any foreign country, as fully and entirely as the same would have been held by me had this assignment and sale not been made, and covenant that I have full right so to do.

4. I also agree to review all patent applications, sign all lawful papers, execute all divisional, continuing, and reissue applications, and make all rightful oaths presented to me by Tripwire, Inc., that are required to complete any further patent applications for the inventions (not including U.S. Patent Application No. 13/235,189) with the understanding that Tripwire will compensate me at the rate of \$5 per page reviewed. My charges for reviewing U.S. Patent Application No. 13/235,189 are covered by the \$100 payment recited above.
