ASSIGNMENT

WHEREAS, Samsonite LLC, a Delaware limited liability company having its principal place of business at 575 West Street, Suite 110, Mansfield, Massachusetts 02048 U.S. (collectively the "Assignor") is the owner by assignment of the right, title, and interest in and to certain new and useful systems, devices, designs and methods as disclosed and described in the attached Samsonite Invention and Product Design Disclosure Questionnaire having the title "Outboard Pivoting Caster Wheel Housing" (the "Invention"); and

WHEREAS, Assignor desires to assign any and all right, title and interest to the Invention; any patents, patent applications, utility models, utility model applications, design registrations, design applications, or other intellectual property rights based upon or arising from the Invention, including, but not limited to, any original, provisional, non-provisional, continuation, continuation-in-part, divisional, international, foreign, regional, and convention applications, registrations, or patents; any reissue or reexamination thereof or to be obtained therefor; any renewals, or substitutes thereof; any and all priority rights or priority claims and International Convention rights for any of the foregoing; any and all rights to collect damages, including past damages, for infringement of any and all of the foregoing; and other benefits accruing to or to accrue to Assignor with respect to the filing of applications for patents or design registrations or the securing of patents, design registrations, or other intellectual property rights in any country or region in the world (the "Intellectual Property Rights"); and

WHEREAS, Samsonite IP Holdings S.ar.l., a Luxembourg private limited liability company, having its principal place of business at 13-15 avenue de la Liberte, L-1931 Luxembourg, Luxembourg (the "Assignee"), desires to acquire any and all right, title, and interest of Assignor in and to the Invention and the Intellectual Property Rights;

NOW THEREFORE, for the sum of \$1.00 and other good and valuable consideration to Assignor in hand paid, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred and by these presents does hereby sell, assign and transfer to the said Assignee, and said Assignee's legal representatives, successors and assigns, any and all of the entire right, title and interest in and to the Invention and the Intellectual Property Rights;

UPON SAID CONSIDERATION, the Assignor hereby covenants and agrees with the said Assignee that it will not execute any writing or do any act whatsoever conflicting with these presents, and that it will, at any time upon request, without further or additional consideration, but at the expense of the said Assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making applications for and obtaining original, provisional, non-provisional, continuation, continuation-in-part, continuing prosecution, divisional, renewal, reissue, reexamined, or extended patents or design registrations in any country or region in the world, and execute confirmatory assignments or acknowledgments of this assignment as necessary for full enjoyment of the Invention and the Intellectual Property Rights and for recording in foreign patent offices, and in enforcing any rights or choses in action accruing as a result of the Intellectual Property Rights, by giving testimony in any proceedings or transactions involving such Invention and/or the Intellectual Property Rights, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of both parties;

UPON SAID CONSIDERATION, Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey any and all right, title, and interest in the Invention and the Intellectual Property Rights, and that Assignor has not conveyed nor will convey hereafter all or part of the Invention and the Intellectual Property Rights to a third party; and

ASSIGNOR HEREBY AUTHORIZES said Assignee, its successors, and assigns, or anyone it may properly designate, to apply for patents, design registrations, and other intellectual property rights associated with the Invention in any country or region in the world, in its own name if desired, and additionally to claim priority to the filing date of the original application or registration and otherwise take advantage of the provisions of any international conventions.

This Assignment may be executed in two or more counterparts and by facsimile, all of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

The effective date of this Assignment is July 31, 2014.
