PATENT

**ASSIGNMENT**

WHEREAS, we, **Brian Spencer Berland** of Morrison, CO; **Michael Wayne Stowell** of Loveland, CO; **Jonathan Michael Banks** of Lakewood, CO; **Calvin Roger Sprangers** of Englewood, CO; and **Andrew Colelasure** of Littleton, CO, made certain new and useful inventions and improvements for which a patent application has been prepared and filed with the U.S. Patent & Trademark Office on July 29, 2014 receiving Application No. 14/446,129, entitled "BENDABLE SCORING LINES IN THIN-FILM SOLID STATE BATTERIES," and further identified as Attorney File No. 70227.0023USU1.

AND WHEREAS, **ITN Energy Systems, Inc.**, a corporation organized and existing under and by virtue of the laws of the State of Colorado, and having an office and place of business at 8130 Shaffer Parkway, Littleton, CO 80127 (hereinafter "Assignee") is desirous of acquiring the entire right, title and interest in and to said inventions, improvements and application and in and to the Letters Patent to be obtained therefor;

NOW THEREFORE, to all whom it may concern, be it known that for and in consideration of the sum of One Dollar and other good and valuable considerations, the receipt and sufficiency whereof is hereby acknowledged, we have sold, assigned, and transferred, and by these presents do sell, assign and transfer unto said Assignee, its successors or assigns, the entire right, title and interest for all countries in and to all inventions and improvements disclosed in the aforesaid application, and the right(s) to claim priority thereto, and in and to the application, all patent applications based upon said application, all divisions, continuations, or renewals thereof, all Letters Patent which may be granted therefrom, and all reissues or extensions of such patents, and in and to any and all applications which have been or shall be filed in any foreign countries for Letters Patent on the inventions and improvements, including an assignment of all rights under the provisions of the International Convention, and all Letters Patent of foreign countries which may be granted therefrom; and we do hereby authorize and request the Commissioner of Patents and Trademarks to issue any and all United States Letters Patent for the aforesaid inventions and improvements to the Assignee as the assignee of the entire right, title and interest in and to the same, for the use of the Assignee, its successors and assigns.

AND, for the consideration aforesaid, we do hereby agree that we and our executors and legal representatives will make, execute and deliver any and all other instruments in writing including any and all further application papers, affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to us relating to said improvements and the history thereof and will testify in all legal proceedings and generally do all things which may be necessary or desirable more effectually to secure to and vest in said Assignee, its successors or assigns the entire right, title and interest in and to the improvements, inventions, applications, Letters Patent, rights, titles, benefits, privileges and advantages hereby sold, assigned and conveyed, or intended so to be.

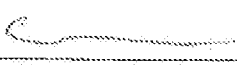

AND, furthermore we covenant and agree with said Assignee, its successors and assigns, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by us and that full right to convey the same as herein expressed is possessed by us.

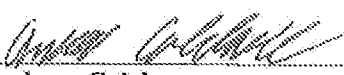

IN WITNESS WHEREOF, the parties hereto have executed this Assignment as of the date indicated hereunder.

EMPLOYEE INVENTION AGREEMENT

This agreement is made as of OCT 10 2011, by and between, ITN Energy Systems, Inc., a Colorado Corporation (the "Company") and \_\_\_\_\_ ("Employee") and in consideration of employment compensation and benefits, and other good and valuable consideration, it is agreed by both parties as follows:

The Employee hereby sells, transfers and assigns to the Company, or to such other person or entity as the Company may hereafter designate, all of the Employee's right, title and interest in and to all inventions, ideas, discoveries, concepts, improvements and work product of Employee, whether patented or unpatented, patentable or unpatentable, copyrighted or uncopyrighted and copyrightable or uncopyrightable (collectively, the "Inventions") made, discovered or conceived, in whole or in part, by the Employee, solely, or jointly with others (whether or not such others are employees of the Company), during the term of the Employee's employment by the Company. This does not apply to inventions or ideas developed entirely on Employee's own time without using the Company's equipment, supplies, facilities, or trade secret information except for those inventions that either: (i) relate at the time of conception or reduction to practice of the invention to the Company's business, or products or enhancements of products or actual or demonstrably anticipated research or development of the Company; or (ii) result from any work Employee performs for the Company. Any Invention, the existence of which is disclosed to or otherwise learned by the Company, shall be presumed to have been first made, discovered or conceived by the Employee while the Employee was employed by the Company.

The Employee shall communicate promptly and disclose to the Company, in such form as the Company requests, all information, details and data pertaining to the inventions; and, whether during the term hereof or thereafter, the Employee shall execute and deliver to the Company such formal transfers and assignments, and such other papers and documents as may be required of the employee to permit the Company or any persons or entity designated by the Company to file and prosecute the patent applications with respect to any invention, and, as to copyrightable material, to obtain the copyright thereon.

The Employee shall not disclose any information, details of data concerning the inventions to any other person or entity and shall not use the inventions or any information, details or data relating thereto for the Employee's direct or indirect benefit, without the Company's prior written consent. At the expense of the Company, the Employee will assist the Company or its designees in obtaining, defending and enforcing patents or copyrights that are based on or related to the inventions.

If there is a breach or threatened breach of this provision, the Company shall be entitled to an injunction restraining the Employee from such a breach. Nothing herein shall be construed as prohibiting the Company from pursuing any other remedies for such breach or threatened breach. In the event the Company commences legal action to enforce any provision of this Agreement or to recover damages for breach thereof, the Company shall be entitled to recover its expenses of litigation, including, without limitation, reasonable attorneys' fees, deposition expense and expert witness fees.
