ASSIGNMENT

This Assignment is made by Frank Dietrich of Berlin, Germany and Manfred Paeschke of Wandlitz, Germany (hereinafter referred to as "Assignors").

WHEREAS, Assignors have invented a new and useful invention entitled **METHOD FOR INITIALIZING A MEMORY AREA THAT IS ASSOCIATED WITH A SMART METER**, for which an application for United States Letters Patent was made, and application filed with the U.S. Patent and Trademark Office on _____, U.S. Application Serial No. _____; and

WHEREAS, Assignors believe themselves to be the original inventors of the invention disclosed and claimed in said application for Letters Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning their entire right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said inventions in the United States and throughout the world;

NOW, THEREFORE, in accordance with obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors sell, assign, and transfer to **BUNDESDRUCKEREI GmbH** of Oranienstraße 91, 10969 Berlin, Germany (hereinafter referred to as "Assignee"), its legal representatives, successors, and assigns, the entire right, title, and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agrees that upon request and without further compensation, but at no expense to Assignors, and/or their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or

desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner for Patents of the United States and of all foreign countries to issue any Letters Patent granted for said invention, whether on said application or on any subsequently filed utility, divisional, continuation, continuation-in-part, continued prosecution application, reissue application, or the like, to Assignee, its successors and assigns, as the assignee of the entire interest in said invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date provided below.
