## ASSIGNMENT

North American Industrial Services, Inc., a New York corporation, having a place of business at 1240 Saratoga Road, Ballston Spa, New York 12020 (hereinafter referred to as Assignor), owns the entire right, title and interest in and to certain new and useful improvements in HIGH PRESSURE FLUID SYSTEM for which a United States patent application was executed on even date herewith, and which includes improvements in addition to improvements in application for United States Letters Patent, filed on October 10, 2013 as Application No. 61/889,199.

PSI Pressure Systems Corp., a Texas corporation, having a place of business at 1010 Market Street, Baytown, Texas 77520 (hereinafter referred to as Assignee) desires to acquire the entire right, title, and interest in and to the invention, any related intellectual property and knowhow and all patents that may be granted therefor anywhere in the world.

In consideration of the sum of One Dollar (\$1.00), the receipt of which is hereby acknowledged, and for other good and valuable consideration, Assignor sells, assigns, and transfers unto Assignee the entire right, title, and interest in and to (a) the invention in the United States and in all foreign countries, any related intellectual property and knowhow (b) the application, (c) all provisional applications from which the application claims priority to or from, (d) all nonprovisionals, divisions, continuations, continuations-in-part, reissues, reexaminations, substitutions, renewals, and extensions claiming priority directly or indirectly from the application including the right to claim for any such application the benefits of the International Convention; and (e) all patents that may be granted on any of the foregoing in the United States and in all foreign countries.

Assignor authorizes and requests the patent office officials in the United States and in all foreign countries to issue all of the patents, when granted, to Assignee as the owner of the entire right, title, and interest in and to the same.

Assignor agrees to communicate to Assignee or its representatives all facts known to Assignor respecting the invention; to testify in all legal proceedings; to sign all documents; to execute all nonprovisional, divisional, continuation, continuation-in-part, reissue, reexamination, substitution, renewal, and extension applications; to

execute all necessary assignment documents to cause all of the patents to be issued to Assignee, to make all rightful oaths, and generally to do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper protection for the invention in the United States and in all foreign countries.
