ASSIGNMENT

This Assignment is made by Simon Walker of 860 Jackson Way, Delta, British Columbia, Canada V4L 1W4 and Craig Raymond Lawson of Suite 1206, 8485 New Haven Close, Burnaby, British Columbia, Canada V5J 0B7 (together, hereinafter referred to as "Assignors") to Peak Innovations Inc., having a place of business at 203 -- 11782 Hammersmith Way, Richmond, British Columbia, Canada V7A 5E2 ("Assignee").

WHEREAS Assignors have invented a new and useful design and invention entitled **HANDRAIL**, for which an application for a will be filed substantially contemporaneously with the filing of this Assignment (the "Design").

WHEREAS Assignors believe themselves to be the original and first inventors of the Design; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire worldwide right, title and interest in and to said Design, said application, and any design patent, industrial design, design right, utility model or petty patent that may be granted for said Design in the United States, Canada or anywhere else throughout the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) each and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire worldwide right, title and interest in and to said Design, said application, and any design patent, industrial design, design right, utility model or petty patent that may be granted for said Design in the United States, Canada or anywhere else throughout the world, including the right to file foreign applications directly in the name of the Assignees and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any design patent, industrial design, design right, utility model or petty patent as may issue anywhere in the world for said Design, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to said Design, said application, and any design patent, industrial design, design right, utility model or petty patent granted for said Design in the United States, Canada or anywhere in the world.

Assignors represent and warrant that they have not granted and will not grant to any other any rights inconsistent with the rights granted herein.

Assignors authorize and request the Director of Patents of the United States and of all foreign countries to issue any design patent, industrial design, design right, utility model or petty patent granted for said Design, whether on said application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire undivided interest in said Design.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date written hereinbelow.
