PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT ("Assignment") is made and entered into as of February 28, 2013 ("Effective Date") by and between **EBI, LLC**, an Indiana limited liability company with its principal office at 399 Jefferson Road, Parsippany, NJ 07054 ("Assignor"), and **Breg, Inc.**, a California corporation, with its principal office at 2885 Loker Ave. E., Carlsbad, CA 92010 ("Assignee").

WHEREAS, Assignor and Assignee are parties to that certain Asset Purchase Agreement dated December 21, 2012 (as amended or modified from time to time, the "Purchase Agreement"); and

WHEREAS, Assignor is the sole and exclusive owner of the entire right, title and interest in, to, and under those United States patents identified and set forth on Schedule A (the "Patents"); and

WHEREAS, Assignee wishes to acquire and Assignor wishes to assign all right, title and interest in and to the Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and set over to Assignee, the entire right, title and interest in and to the Patents, for the United States and for all foreign countries, including any applications, continuations, divisions, continuations-in-part, reissues, reexaminations, extensions or foreign equivalents thereof, and including the inventions described and claimed in the Patents for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made; together with all income, royalties, damages or payments coming due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

Assignor authorizes and requests the Commissioner of Patents and Trademarks, or the equivalent foreign agency, entity or individual, to recognize and record, as applicable, Assignee as owner of the Patents, including any applications, continuations, divisions, continuations-in-part, reissues, reexaminations or extensions thereof, and to issue any and all letters patent of the United States thereon to Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives. Assignee shall be responsible for recording this Assignment in all applicable jurisdictions.

Assignor hereby represents and warrants that its right, title and interest in and to the Patents are free and clear of any liens and encumbrances, that it has full right to assign all of its interests therein, and that it has not executed and will not execute any agreement or other instrument in conflict herewith.

Assignor shall provide Assignee, its successors, assigns or other legal representatives, cooperation and assistance at Assignee's request and sole expense (including the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation as may be reasonably required) as may be necessary for: (1) the preparation and prosecution of any applications covering the Patents assigned herein; (2) the prosecution or defense of any interference, opposition, reexamination, reissue, infringement or other proceedings that may arise in connection with any of the patent rights assigned herein, including, but not limited to, testifying as to any facts relating to the patent rights assigned herein and this Assignment; (3) obtaining any additional patent protection that Assignee may deem appropriate which may be secured under the laws now or hereafter in effect in the United States or any other country; and (4) the implementation or perfection of this Assignment.
