ASSIGNMENT

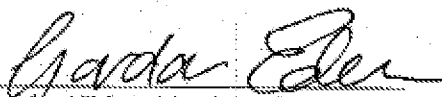

Gordon Eden, herein after referred to as "Eden", for good and valuable considerations, in hand paid, the receipt and sufficiency whereof are hereby acknowledged by Eden, have sold, assigned, conveyed and set over, and do hereby sell, assign, convey and set over unto **Plastic Recovery Technologies Corporation**, a corporation organized under the laws of the State of Illinois, represented herein by its duly authorized representative and having a place of business in Bensenville, Illinois (hereinafter referred to as "ASSIGNEE"), its successors and assigns, the entire right, title and interest in and to one hundred (100%) percent of all subject matter invented or designed by Eden and disclosed in the below-identified patents and patent applications, and any non-provisional applications that assert a claim of priority to at least one of said applications and in and to all Letters Patent of the United States including any reissues and extensions thereof that may be obtained therefore, and one hundred (100%) percent of the entire right to applications for Letters Patent, Inventor's Certificates, Utility Models and Designs, in countries foreign to the United States when said foreign application includes a valid claim of priority to at least one of such provisional application under the International Convention, and one hundred (100%) percent of the entire interest in any Letters Patent, Inventor's Certificate, Utility Model or Design which may be granted on any such application in such foreign country.

The patent and patent applications is as follows:

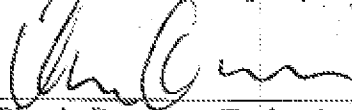

Utility Patent No. 7,784,642 issued on August 31, 2010 from patent application serial number 10/894,512 filed on July 20, 2004 and claiming priority to provisional patent application serial number 60/561,838 filed on April 13, 2004; patent application serial number 10/894,512; provisional patent application serial number 60/561,838; Design Patent No. D513,179 issued on December 27, 2005 from patent application serial number 29/203,308 filed on April 13, 2004; and patent application serial number 29/203,308.

Executed in duplicate originals and expressed mailed to PRT's address in Bensenville, IL and effective the date shown.

Dated: April 20, 2012

Gordon Eden (Assignor)

Dated: April 20, 2012

Plastic Recovery Technologies Corporation
Kevin Gavin
President

Assignment Agreement

Gordon Eden, herein after referred to as "Eden", has agreed to sign over the assignment rights to Utility Patent No 7,784,642 issued on August 31, 2010 and Design Patent No. D513, 179 to Plastic Recovery Technologies Corporation, herein after referred to as "PRT" for a sum total of \$7, 000 or seven thousand US dollars. This agreement will be executed in the following manner PRT will send the attached assignment agreement "Attachment A" along with a check made out to Eden for \$7,000 via express mail that will be delivered by Friday April 20th. Eden will then sign the agreement and send the executed agreement back to PRT via express mail so it arrives no later than Tuesday April 24, 2012. If an executed agreement does not arrive by Tuesday the 24th, PRT will have the rights to void the payment.

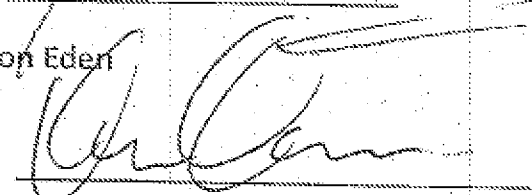

By signing below the parties agree to honor the above.

Dated: April 16, 2012
