Pincherry Place, Regina, Saskatchewan, S4V 1N1, such individuals being jointly the assignee under this Agreement (the "Assignee").

Whereas:

- (A) The University is the owner of all right, title, and interest in an invention entitled "Method and apparatus of visual representations of search results", United States Patent number 7,752,557, and Canadian Patent number 2557389 (collectively, the "Intellectual Property Rights") and all inventions disclosed therein.
- (B) The University cannot at this time justify the commitment of further resources to the Intellectual Property Rights, and has decided to assign all of the University's right, title and interest in the Intellectual Property Rights to Assignee, as further set out in this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and other good and valuable consideration, the adequacy and sufficiency of which are acknowledged, the parties hereto agree as follows:

1. **Definitions** - The following definitions shall apply throughout this Agreement, including the foregoing portions and those that follow:
 - (a) "Technology" means any and all technology disclosed in the Intellectual Property Rights, including developments, innovations, inventions, formulas, know-how, technical information, materials, specifications, methodologies, processes, operating parameters and techniques, data, reports, and drawings.
2. **Assignment of Intellectual Property Rights** - The University hereby assigns, transfers and conveys to Assignee all of the University's right, title and interest in and to the Intellectual Property Rights and any and all applications arising therefrom.
3. **Assumption of Responsibility for Perfecting Intellectual Property Rights** - The Assignee agrees to bear all costs associated with perfecting the Intellectual Property Rights that are incurred from the date of this Agreement forward, including all costs in respect of prosecuting patent applications and filing any and all applications arising from the Intellectual Property Rights.
4. **Assistance in Perfection of Recording of Rights** - The University shall, at the Assignee's request and at the Assignee's expense, execute and deliver all further documents necessary to enable the Assignee or its nominees to be recorded as the owner of, prosecute, perfect, protect, enforce and/or maintain any and all right, title and interest, in any country, in and to the Intellectual Property Rights.
5. **Disclaimer of Warranty** - Assignee acknowledges and agrees that the University makes no representations or warranties, either express or implied, regarding the Intellectual Property Rights or the Technology disclosed therein including, without limitation, any representation or warranty:

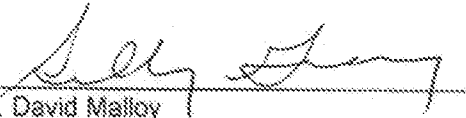

- (a) that the Technology corresponds with a particular description, is of merchantable quality, is fit for a particular purpose; or is durable for a reasonable period of time; or
 - (c) that practicing the Technology does not or will not infringe the intellectual property rights of a third party or any other intellectual property rights owned by the University, or that the Assignee has or will have freedom to practice the Technology.
6. **Further Acknowledgments of Assignee** - Assignee acknowledges and agrees that:
- (a) nothing in this Agreement grants the Assignee any right to use in advertising or publicity the name of the University or any of the University's trade-marks in connection with the Technology. Assignee acknowledges that monetary damages would be inadequate to compensate the University for such unauthorized use of the name of the University or any of the University's trade-marks by Assignee and that any such use would constitute irreparable harm to the University, and that the University shall, in addition to all other remedies, be entitled to an immediate injunction enjoining any such use; and
 - (b) Assignee has not sought, nor been given any legal, tax, accounting or financial advice by the University in connection with this Agreement, and has instead been advised to seek independent legal, tax, accounting and financial advice.
7. **Rights for future research and teaching** -- Assignee hereby grants to the University a non-exclusive, non-transferable, personal license to use any of the Technology solely for academic purposes, including research, scholarly publication, education, and all other non-commercial purposes (the "Academic License").

Any such waiver shall be enforceable only to the extent specifically set out in the waiver. A waiver by a party hereto of any right, power or remedy, or any one or more of them, on any one occasion shall not be construed as a bar to or waiver of any right, power or remedy, or any one or more of them, which the party would otherwise have on any future occasion, whether similar in kind or otherwise.
15. **No Joint Venture** - This Agreement shall not create a joint venture, partnership or other formal business relationship or entity of any kind, or an obligation to form any relationship or entity.
