EXHIBIT B
PATENT ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and subject to the licenses granted in the Intellectual Property Matters Agreement between the parties dated of October 27, 2014, Riverbed Technology, Inc., a Delaware corporation with a principal place of business at 680 Folsom San Francisco, CA 94105 (“**Assignor**”), does hereby sell, transfer, convey, assign and deliver to Blue Steel Acquisition LLC, a Delaware limited liability company (“**Assignee**”) all of Assignor’s right, title and interest in and to:

- the patents and patent applications listed in the attached **Schedule 1**;
- to any and all patents and applications (including continuations, divisions, substitutions, reissuances, and convention applications and patents) that are entitled to the benefit of priority, or are implicated by a terminal disclaimer (related to an “obviousness-type” double patenting rejection), with respect to any of the patents or patent applications listed in Schedule 1;
- to any renewals or extensions of any of the foregoing (including but not limited to any of the foregoing that may be for design patents, industrial designs, petty patents, or utility models), regardless of whether those rights arise under the laws of the United States or any other state, country or jurisdiction throughout the world, (collectively, “Assigned Patents”); and
- to have and to hold the same, for Assignee’s own use and enjoyment and for the use and enjoyment of its successors and assigns entirely, as if the same would have been held and enjoyed by Assignor had this assignment not been made, and further with all rights of action, powers and benefits to the Assigned Patents, due or accrued, including the right to sue for and recover in the Assignee’s own name and that if its successors and assigns and other legal representatives, all remedies of every nature including without limitation, the right to sue for past damages for infringement, right to injunctive relief, damages, profits, costs and attorney fees, arising out of any infringement of such Assigned Patents accruing at any time prior to, on, and/or after the date hereof, for the full term or terms of all such Assigned Patents.

This Patent Assignment shall inure to the benefit of and be binding upon Assignee and Assignor and their respective successors and assigns.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all Assigned Patents to Assignee, as owner of the entire right, title and interest therein.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, the Assignor and Assignee have executed this Patent Assignment by their duly authorized representatives as of October 27, 2014:
