The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.

I have reviewed and understand the contents of the application, including the claims.

I am aware of the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in 37 CFR Section 1.56.

Whereas, the undersigned inventor(s) has/have made certain inventions, improvements, and discoveries (herein referred to as the "Invention") disclosed in the above-identified patent application and further identified by the Docket Number provided above in the header of this document;

Whereas, Central Glass Co., Ltd., a corporation having a place of business at 5253, Oaza Okiube, Ube-shi, Yamaguchi 755-0001 Japan (herein referred to as "CENTRAL GLASS"), desires to acquire, and each undersigned inventor desires to grant to CENTRAL GLASS, the entire worldwide right, title, and interest in and to the Invention and in and to any and all patent applications and patents directed thereto;
