ASSIGNMENT

WHEREAS, LAWRENCE A. KYLE, a citizen of the United States of America, residing at 13870 Settlements Road, Salado, Texas 76571, and ROBERT JOHNSON, a citizen of the United States of America, residing at 2508 Resnick Drive, Round Rock, Texas 78681, hereinafter called the "Assignors", have made the invention described in the United States patent application entitled *Systems and Methods for Mechanical Isolation of Information Handling Resources*, Attorney Docket No. 102450.00180 (103996.01), for a full description of which reference is here made to an application for Letters Patent of the United States filed on November 14, 2014 and assigned Application Serial No. 14/541362; and

We hereby also sell, assign and transfer unto DELL PRODUCTS L.P., the entire right, title and interest in and to the invention and in and to applications for Letters Patent therefor in all countries foreign to the United States of America, including all rights under any and all international conventions and treaties in respect of the invention and the applications for Letters Patent in foreign countries, and we further authorize DELL PRODUCTS L.P. to apply for Letters Patent in foreign countries directly in its own name, and to claim priority of the filing date of the application for Letters Patent of the United States of America under the provisions of any and all international conventions and treaties.

We hereby authorize and request the Commissioner of Patents of the United States of America to issue Letters Patent upon the aforesaid application, division, extension, continuation, continuation-in-part, or reissue, to DELL PRODUCTS L.P., for the sole use and benefit of DELL PRODUCTS L.P., its successors, assigns and legal representatives, to the full end of the term for which the Letters Patent may be granted, the same as they would have been held and enjoyed by me had this assignment not been made, and we hereby authorize and request the equivalent authorities in foreign countries to issue the patents of their respective countries to DELL PRODUCTS L.P.

We agree that, when requested, we will, without charge to DELL PRODUCTS L.P., but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for the inventions in any and all countries and for vesting title thereto in DELL PRODUCTS L.P., its successors, assigns and legal representatives or nominees.
