ASSIGNMENT OF PATENT APPLICATION

WHEREAS, I, Robert J. Neace, Jr., of Vancouver, Washington, have invented a Cold Brew Coffee System, hereinafter referred to as the "invention(s)," for which on an even date herewith I executed an application for United States design patent.

WHEREAS, Bean Logik LLC, a Washington limited liability company, herein referred to as "Assignee" whose mailing address is 14300 NE 20th Avenue, Suite D102, #195, Vancouver, WA 98686 is desirous of acquiring the entire right, title, and interest in the same.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), the receipt of which is hereby acknowledged, and other good and valuable consideration, I, by these presents do hereby sell, assign, and transfer unto the Assignee (1) the full and exclusive right to the invention(s) for the United States and all foreign countries (including PCT), (2) the entire right, title, and interest in and to any and all patents related to the invention(s) which may be granted therefore in the United States or any foreign country (including PCT), (3) the entire right, title, and interest in and to any provisionals, nonprovisionals, divisions, continuations, continuations in part, improvements, reissues, or extensions that may be made or granted on the invention(s) in the United States or any foreign country (including PCT), and (4) the entire right, title, and interest in and to any other intellectual property that is specifically related to the invention(s), including copyrights, trademarks, and trade secrets.

FURTHER, I agree to execute further instruments proper for effectuating the premises.

FURTHER, I hereby authorize and request the Commissioner of Patent and Trademarks to issue the patent(s) to the Assignee of the entire right, title, and interest in and to the same, for Assignee's sole use and behoof; and for the use and behoof of Assignee's legal representatives, to the full end of the term for which the patent(s) may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

I represent that I (1) have not previously sold, assigned, or transferred, (2) have not previously agreed to sell, assign, or transfer, and (3) am under no obligation to sell, assign, or transfer any of the rights in the invention(s) (including those set forth above) to any party other than Assignee.

FURTHER, I hereby acknowledge and affirm any recorded and/or nonrecorded assignment document(s) (consistent with the intentions of this assignment document) of any related applications including, but not limited to, applications from which this application claims priority directly or indirectly, provisional application(s), nonprovisional application(s), divisional application(s), continuation application(s), continuation-in-part application(s), foreign (including PCT) application(s), improvement(s), reissue(s), and/or extension(s).
