## **ASSIGNMENT**

**Whereas** Bruker Biosciences Pty. Ltd., a company having a place of business at 1/28-38 Albert St., Preston VIC 3072 Australia, and which, together with its successors and assigns, is hereinafter called "Assignor" acquired rights by assignment in discoveries and inventions set forth in the attached "Schedule A", (hereafter "Inventions"); and

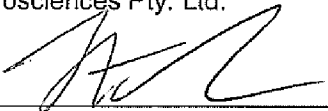

**Whereas** Bruker Chemical Analysis BV, a company having a place of business at Amundsenweg 13, 4462 GP, Goes, Netherlands, and which, together with its successors and assigns, is hereinafter called "Assignee," has sought to acquire the title, rights, benefits and privileges hereinafter recited;

**Now, therefore**, in recognition of valuable consideration furnished by Assignee to Assignor, receipt and sufficiency of which is hereby acknowledged, Assignor confirms that, by a Deed of Transfer dated September 30, 2013, it does, without reservation:

1. Assign, transfer and convey to Assignee the entire right, title and interest in and to said Inventions, any and all other applications for Letters Patent on said Inventions in whatsoever countries, including all divisional, renewal, substitute, continuation, Convention and non-Convention applications based in whole or in part upon said Inventions, or upon said applications, and any and all Letters Patent, reissues, reexaminations, and extensions of Letters Patent granted for said Inventions or upon said applications, and every priority right that is or may be predicated upon or arise from said Inventions, said applications and said Letters Patent;
2. Authorize Assignee to file patent applications in any or all countries on any or all of said Inventions in the name of Assignee or otherwise as Assignee may deem advisable, under the International Convention or otherwise;
3. Authorize and request the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to transfer said Inventions to Assignee, as assignee of the entire right, title and interest therein or otherwise as Assignee may direct;
4. Warrant that it has not knowingly conveyed to others any right in said Inventions, applications or patents or any license to use the same or to make, use or sell anything embodying or utilizing any of said Inventions; and that it has good right to assign the same to Assignee without encumbrance;
5. Bind its legal representatives and assigns, as well as itself, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to it, all acts reasonably serving to assure that the said Inventions shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by its legal representatives and assigns if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all

facts known to it relating to said Inventions or the history thereof; and to furnish Assignee with any and all documents, photographs, models, samples and other physical exhibits in Applicant's control or in the control of its legal representatives or assigns which may be useful for establishing the facts of conceptions, disclosures, and reduction to practice of inventions and discoveries disclosed therein.
