Now, Therefore, for valuable consideration furnished by Assignee to Assignor, receipt and sufficiency of which Assignor hereby acknowledges, Assignor, hereby, without reservation:

1. Assign, transfer and convey to Assignee the entire right, title, and interest in US Patent Application No. 10/205,738 and US Patent No. 6,809,118, any and all other patent applications filed in whatsoever countries, including all divisional, renewal, substitute, continuation, continuation-in-part, and Convention applications based in whole or in part upon US Patent Application No. 10/205,738, and any and all Letters Patent, reissues, reexaminations, and extensions of Letters Patent granted upon said patent applications, and every priority right that is or may be predicated upon or arise from said patent applications and said Letters Patent;

2. Authorize Assignee to file patent applications in any or all countries ultimately based on US Patent Application No. 10/205,738 in Assignor's name or in the name of Assignee or otherwise as Assignee may deem advisable, under the International Convention or otherwise;

3.
