ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, **BILL KLUSS**, having an address of 186 Old Palmwoods Road, Woombye, Queensland 4559, Australia, and **GREG MORWOOD**, having an address of 60 Adam Street, Burnley VIC 3121, Australia (the foregoing, collectively, "Assignors"), hereby assign, transfer, sell and convey to **RELIANCE WORLDWIDE CORPORATION**, a Delaware corporation, having a business location at 2400 7th Avenue SW, Cullman, Alabama 35055, United States, its successors, assigns and nominees (the foregoing, collectively, "Assignee"), all right, title, and interest in and to the following inventions invented jointly and solely by Assignors:

1. "**PIPE COUPLING**", including, but not limited to, U.S. Design Patent No. D676,940, issued February 26, 2013;
2. "**ELBOW PIPE COUPLING**", including, but not limited to, U.S. Design Patent No. D676,941, issued February 26, 2013;
3. "**TEE PIPE COUPLING**", including, but not limited to, U.S. Design Patent No. D676,942, issued February 26, 2013; and
4. "**PIPE END CAP**", including, but not limited to, U.S. Design Patent No. D676,943, issued February 26, 2013;

(the foregoing, collectively, the "Inventions"), and in any other patent applications directed to the Inventions, and all letters patent of the United States which may be granted therefor, and all divisions, continuations, continuations-in-part and re-issues thereof, and all applications and patent rights for the Inventions in foreign countries, including the subject matter of any and all claims which may be obtained in every such patent, and authorize and request the Commissioner of Patents and Trademarks to issue all patents on the Inventions or resulting therefrom to Assignee, as assignee of the entire interest, for its own use and benefit, and Assignors represent, warrant and covenant that they have a full right to do so and that they have not executed and will not execute any agreement in conflict herewith, and agree that they will communicate to Assignee or its designated representatives, all facts known to them respecting the Inventions whenever requested, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and generally do everything necessary to aid Assignee to obtain and enforce proper patent protection for the Inventions in all countries. This Assignment can be executed in counterparts, each of which shall be considered an original and effective as against the signatory thereto, and all of which shall together constitute one and the same instrument.
