Assignment

We, the undersigned

Carina Nissen, Stettiner Str.14, 31535 Neustadt am Rügenberge, Germany

Tim Martin Seibert, Busing 4, 35043 Marburg, Germany

(hereinafter referred to as the Assignors)

hereby confirm that in consideration of the sum of one dollar and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we have assigned all our right, title and interest in and to the invention entitled

TWO-PHASE FERMENTATION OF STAPHYLOCOCCUS INCREASES NITRATE REDUCTASE ACTIVITY

for which an International patent application was filed on June 14, 2013 under number PCT/EP2013/062346
to

Chr. Hansen A/S
Bøge Allé 10-12

(hereinafter referred to as the Assignee)

and any and all improvements in said invention, any United States application or any foreign patent application, including provisional, divisional, renewal, substitute, continuation, reexamination and reissue applications, based in whole or in part on said United States application or foreign application, or in whole or in part on said improvements, and in and to any and all letters patent in the United States or any foreign patent, including extensions thereof, which have been or may be granted on any of the aforesaid applications or on said improvements or any parts thereof.

The Assignors hereby covenant for ourselves and our legal representatives, and agree with said Assignee, its successors and assigns, that we have granted no right or license to make, use, sell or offer to sell said improvements, to anyone except said Assignee, that prior to the execution of this deed, our right, title and interest in said improvements had not been otherwise encumbered, and that we have not and will not execute any instrument in conflict therewith.

This Assignment covers all countries of the world and the Assignee is hereby entitled to file applications in any country at its discretion and to abstain from seeking patent protection in any and all countries, if it so desires.

This Assignment also includes our right to claim priority under the Paris Convention or any other multilateral or bilateral treaties.

The Assignors hereby agree to execute any additional assignments and other documents required in connection with the prosecution of the patent applications as well as to perform any additional acts necessary to enable the Assignee or its successors, legal representatives and assigns, to enjoy the full rights of this assignment, including applying for a patent for the invention in the United States of America, and assigning the US application and any patent or patents issuing thereon to the said Assignee or its successors, legal representatives and assigns.
