PATENT

## ASSIGNMENT

In exchange for good and valuable consideration, including the use of university facilities and/or salary and/or employee benefits, the receipt of which is hereby acknowledged, **Julian L. Ambrus, Jr.**, residing at 541 West Ferry Street, Buffalo, NY 14222, and **Long Shen**, residing at 45 Oakridge Drive, Williamsville, NY 14221, the undersigned;

Hereby sell, assign and transfer to **The Research Foundation for the State University of New York**, having a place of business at University at Buffalo, Office of Science, Technology Transfer and Economic Outreach, Baird Research Park, Suite 111, 1576 Sweet Home Road, Amherst, New York 14228, its successors, assigns and legal representatives, our entire right, title and interest in the United States and all foreign countries, in and to any and all inventions disclosed in the following patent applications (hereinafter, collectively, "the enumerated applications"):

| Country/Int. Authority | Patent Application No. | Filing Date      | Title                                  |
|------------------------|------------------------|------------------|--|
| US                     | 61/297,167             | January 21, 2010 | METHOD OF DIAGNOSING SJOGREN'S DISEASE |
| WO                     | PCT/US2011/021992      | January 21, 2011 | METHOD OF DIAGNOSING SJOGREN'S DISEASE |
| US                     | 13/574,265             | July 20, 2012    | METHOD OF DIAGNOSING SJOGREN'S DISEASE |
| US                     | 14/284,805             | May 22, 2014     | METHOD OF DIAGNOSING SJOGREN'S DISEASE |

And in and to the enumerated applications and all applications, United States patents or similar legal protections that claim benefit or priority of any or all of the enumerated applications, including all non-provisionals or national / regional stage applications under any and all International Conventions or Treaties, including the Patent Cooperation Treaty and the European Patent Convention, and all divisionals, continuations, continuations-in-part, reissues, renewals and extensions thereof, and all substitutes of any of the foregoing, which have been or shall be filed or issued in the United States and in any or all foreign countries on any or all of

said inventions; for the entire term thereof, as fully and entirely as the same would have been held by us had this sale, assignment and transfer not been made;

And the right to file, prosecute to issuance and pursue any post-grant proceedings regarding any or all of the afore-mentioned applications, patents of the United States or similar legal protections claiming benefit or priority of the enumerated applications in any and all countries or under any and all International Conventions or Treaties in the name of said Assignee and/or in the name(s) of the undersigned;

And we agree that, when requested, we shall execute all rightful oaths or declarations, assignments, powers of attorney and other papers; communicate to the Assignee, its successors, assigns and legal representatives any facts known to us respecting said inventions, testify in all legal proceedings and generally do everything possible to aid in securing and maintaining proper United States patents or similar legal protections for said inventions;

And covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, license, other agreement, mortgage or other encumbrance affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
