ASSIGNMENT

WHEREAS, Norman R. Byrne, residing at 2736 Honey Creek Ave. NE, Ada, Michigan 49301; and Randell E. Pate, residing at 7525 Westlane Ave., Jenison, Michigan 49428 (hereinafter referred to as Assignors), have invented certain new and useful improvements in an ELECTRICAL POWER UNIT FOR A WORK SURFACE, for which a United States design application, Ser. No. 29/500,041 was filed August 21, 2014.

WHEREAS, Byrne Electrical Specialists, Inc., a corporation of the State of Michigan, having a place of business at 320 Byrne Industrial Drive, Rockford, MI 49341 (hereinafter referred to as Assignee), is desirous of acquiring the entire right, title and interest in and to said invention and in and to any Letters Patent that may be granted therefor in the United States and in any and all foreign countries.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and for other good and valuable considerations, Assignors hereby sell, assign and transfer unto said Assignee the full and exclusive right, title and interest to the said invention in the United States and in all foreign countries and the entire right, title and interest in and to any and all Patents which may be granted therefor in the United States and in any and all foreign countries and in and to any and all divisions, reissues, continuations, continuation-in-part, and extensions thereof, based on the above-referenced provisional application, including the full right to claim for any such applications the benefits of the International Convention.

Assignors hereby authorize and request the Patent Office Officials in the United States and in any and all foreign countries to issue any and all of said Patents, when granted, to said Assignee as the owner of the entire right, title and interest in and to the same, for the sole use and behoof of said Assignee, its successors and assigns.

FURTHER, Assignors agree to communicate to said Assignee or its representatives any facts known to Assignors respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, continuation-in-part, substitution, renewal, and reissue applications, execute all necessary assignment papers to cause any and all of said Patents to be issued to said Assignee, make all rightful oaths and generally do everything possible to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and in any and all foreign countries.
