ASSIGNMENT

WHEREAS, WE, Daniel Brian Lanois, 3450 Blair Cir NE, Unit 1305, Atlanta, GA 30319, U.S.A.; Bradford Lee Boone, 2690 Terwilliger Blvd, Tulsa, OK, 74114, U.S.A.; Ryan Eric Gursky, 8766 E 105th Pl, Tulsa, OK 74133; James Calvin Johnson, 6205 N. Santa Fe, Oklahoma City, OK 73118, U.S.A. and Bruce Scott Markman, 6909 E. 115th Place S., Birby, OK 74008, U.S.A., have invented certain improvements in "Bone Anchor Delivery System Device With Sutures", and described in a patent application executed the 23rd and 1st day of July and October, 2014, by the undersigned for filing in The United States of America, being owner of all right, title and interest in and to said application, and in and to any invention described therein and having full right to convey the entire interest both legal and equitable herein assigned; and

WHEREAS, VALERIS MEDICAL, LLC, 130 Arnold Mill Park, of Woodstock, GA 30188, a Limited Liability Company of the State of Georgia (assignee) is desirous of acquiring the entire right, title and interest in and to said application and said invention described therein and any and all patents to be obtained therefor, all as hereinafter set forth:

NOW, THEREFORE, in consideration of good and valuable consideration received by the undersigned, the undersigned do hereby sell, assign, transfer and set over unto said assignee, its successors and assigns, the entire right, title and interest in and to said invention or inventions, as described in the aforesaid application, in any form or embodiment thereof, and in and to the aforesaid application; and in and to any application filed in any foreign country based thereon, including the right to file said foreign applications under the provisions of the International Convention; also the entire right, title and interest in and to any and all patents or reissues or extensions thereof to be obtained in this or any foreign country upon said invention or inventions and any divisional, continuation, continuation-in-part or substitute applications which may be filed upon said invention or inventions in this or any foreign country; and the undersigned hereby authorize and request the issuing authority to issue any and all patents on said application or applications to said assignee or its successors and assigns.

The undersigned further agree to execute all divisional, continuing, substitute, improvement, extension, reissue and other patent applications in this or any foreign country relating to said application or invention and to sign all other lawful papers and to perform all other lawful acts without further consideration, but without expense to myself (ourselves), which the assignee may deem necessary or desirable to make this Assignment fully effective including by way of example, but not of limitation, the following acts:

- (1) Prompt execution of all lawful oaths, affidavits and/or supplemental oaths required or deemed advisable by the assignee to further the prosecution of any application or applications for letters patent relating to the subject matter of this Assignment;
- (2) To cooperate to the best of our ability in the execution of all lawful documents, the production of evidence, and the giving of testimony in interference, opposition, nullification or infringement proceedings involving the said invention or improvement, applications or patents or any of them.

The undersigned hereby authorize said assignee to insert in this Assignment the serial number and filing date of the above-identified application when known.

IN WITNESS WHEREOF, the undersigned have hereunto set their hands and seals on the dates set after their signatures.
