ASSIGNMENT

WHEREAS, Maximal Design bvba, a Belgian company having its principal place of business at, Willem Lepeistraat 24, 2000 Antwerpen, Belgium (the "Assignor") is the owner by assignment of the right, title, and interest in and to a certain original and ornamental design as represented in the Samsonite Request for Design Patent to be Filed with the Project Name "Motion Spinner: overall/side panel," which is attached hereto (the "Design"); and

WHEREAS, Assignor desires to assign any and all right, title and interest to said Design; any patent, patent application, design registration, design application, or other intellectual property right based upon or arising from said Design, including, but not limited to, any original, continuation, continuation-in-part, divisional, international, foreign, regional, and convention applications, registrations, or patents; any reissue or reexamination thereof or to be obtained therefor; any renewals, or substitutes thereof; any and all priority rights or priority claims and International Convention rights for any of the foregoing; any and all rights to collect damages, including past damages, for infringement of any and all of the foregoing, and other benefits accruing to or to accrue to Assignor with respect to the filing of applications for patents or design registrations or the securing of patents, design registrations, or other intellectual property rights in any country or region in the world (the "Patent and Design Rights"); and

WHEREAS, Samsonite Europe N.V., having its principal place of business at Westerring 17, 9700 Oudenaarde, Belgium (the "Assignee"), desires to acquire any and all right, title, and interest of Assignor in and to the Design and the Patent and Design Rights;

NOW THEREFORE, for the sum of €1.00 and other good and valuable consideration to Assignor in hand paid, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred and by these presents does hereby sell, assign and transfer to the said Assignee, and said Assignee's legal representatives, successors and assigns, any and all of the entire right, title and interest in and to the Design and the Patent and Design Rights;

UPON SAID CONSIDERATION, the Assignor hereby covenants and agrees with the said Assignee that it will not execute any writing or do any act whatsoever conflicting with these presents, and that it will, at any time upon request, without further or additional consideration, but at the expense of the said Assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making applications for and obtaining original, continuation, continuation-in-part, continuing prosecution, divisional, renewal, reissue, reexamined, or extended patents or design registrations in any country or region in the world, and execute confirmatory assignments or acknowledgments of this assignment as necessary for full enjoyment of the Design and the Patent and Design Rights and for recording in foreign patent offices, and in enforcing any rights or choses in action accruing as a result of the Patent and Design Rights, by giving testimony in any proceedings or transactions involving such Design and/or the Patent and Design Rights, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of both parties;

UPON SAID CONSIDERATION, Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey any and all right, title, and interest in the Design and the Patent and Design Rights, and that Assignor has not conveyed

nor will convey hereafter all or part of the Design and the Patent and Design Rights to a third party; and

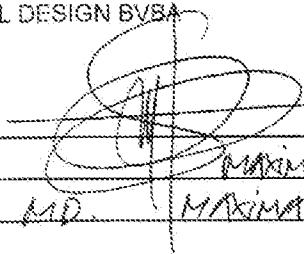

ASSIGNOR HEREBY AUTHORIZES said Assignee, its successors, and assigns, or anyone it may properly designate, to apply for patents, design registrations, and other intellectual property rights associated with the Design in any country or region in the world, in its own name if desired, and additionally to claim priority to the filing date of the original application or registration and otherwise take advantage of the provisions of any international conventions.

This Assignment may be executed in two or more counterparts and by facsimile, all of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

The effective date of this Assignment is 22 April 2014.
