ASSIGNMENT

1. The undersigned Assignor(s) made an Invention entitled:

“RF Bus and RF Return Bus for Plasma Chamber Electrode”

for which Assignor(s) executed a United States patent application on or about the date of this assignment.

2. The Assignee is:

Applied Materials, Inc.

a corporation of the State of Delaware, U.S.A.

address: 3050 Bowers Ave., Santa Clara, California 95054, U.S.A.

3. For good and valuable consideration, receipt of which is hereby acknowledged, the undersigned Assignor(s) hereby sell, assign and transfer to Assignee, its successors and assigns, the entire right, title, and interest in said Invention throughout the world, including: (a) all rights to apply for patents on said Invention in every country pursuant to the International Convention for the Protection of Industrial Property or otherwise, and all rights of priority resulting from the filing of said applications; (b) all patent applications and patents of every country and every group of countries for said Invention, including divisions, continuations, reissues and extensions thereof.

4. Assignor(s) authorize Assignee to apply for patents throughout the world for said Invention, and claim all rights of priority, without further authorization from Assignor(s).

5. Assignor(s) agree to execute all papers useful in connection with said patent

applications and patents, and generally to do everything possible to aid Assignee, its successors, assigns and nominees, at their request and expense, in obtaining and enforcing patents for said Invention in all countries.

6. The undersigned Assignor(s) hereby warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

7. This agreement shall be binding upon Assignor(s) and their respective heirs and legal representatives.
