PATENT ASSIGNMENT

This PATENT ASSIGNMENT ("Assignment") is effective on the 5th day of January, 2015 ("Effective Date") by and between Axxon Robotics LLC, an Oregon corporation ("Assignor"), and Intellibot Robotics LLC, an Oregon corporation ("Assignee").

WHEREAS, Assignor owns the entire right, title and interest in and to the Patents (as defined below) filed with the United States Patent and Trademark Office;

WHEREAS, Assignor provides for the irrevocable assignment of the Assignor's entire right, title and interest in and to the patents (as defined below) to Assignee, in exchange for good and valuable consideration.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, the parties hereto agree as follows:

1. Patents Definition. For purposes of this Assignment, "Patents" means all patent rights, patent applications and inventions (whether or not patentable), any U.S. or foreign patents or patent applications that claim priority to or result from any patent or patent application set forth in attached Schedule A; any reissues, reexaminations, divisional applications, continuation applications, or continuation-in-part applications that claim priority to or result from any patent or patent application set forth in attached Schedule A.

2. Assignment. Assignor hereby sells, assigns and transfers to Assignee all of Assignor's right, title and interest in and to the Patents, including but not limited to renewal rights therein, the right to obtain registrations of the Patents in the United States and throughout the world, and the right to sue and recover any and all damages and profits, and any and all other remedies, for past, present or future infringements or violations thereof, all in Assignee's sole name.

3. Limits on Liability. Assignee hereby accepts the foregoing assignment but shall only assume all liabilities, debts and obligations associated with the Patents to the limited extent set forth in the Agreement; provided, however, that Assignee does not agree to assume any liability, debt, or obligation which may constitute a liability.

4. Enforcement. Assignor shall cooperate with Assignee in any action Assignee reasonably requests that Assignor take in order to effectuate, carry out, or fulfill the parties' intent and/or Assignor's obligations hereunder, including, without limitation, the execution of any instruments and papers that are necessary or desirable, in Assignee's sole discretion, to consolidate, confirm, vest and/or record Assignee's full and complete ownership of the Patents with, for example, the United States Patent and Trademark Office or equivalent foreign offices.

6. Entire Agreement. This Assignment, and Schedule A contain the entire agreement of the parties with respect to the subject matter of this Assignment. No prior agreement or understanding pertaining to any such matter shall be effective. This Assignment may only be modified in a written instrument executed by the parties.

7. Binding Assignment. This Assignment shall be binding upon and inure to the benefit of each of the parties hereto, their successors and permitted assigns.

8. Governing Law. This Assignment shall be governed by and construed under the laws of the State of Oregon, excluding any conflicts of laws rule or principle that might refer the governance or construction of this Assignment to the law of another jurisdiction.

9. Severability. If any provision of this Assignment shall be deemed invalid or unenforceable by any court of competent jurisdiction, then such portion shall be deemed severed, and the remainder thereof shall be enforceable in accordance with its terms.

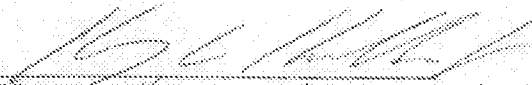

10. Counterparts. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

11. Headings. All headings contained in this Assignment are for reference only and shall not affect the meaning or interpretation of this Assignment in any manner.

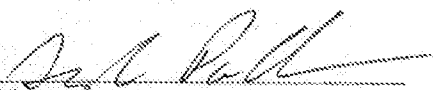

[REMAINDER OF THIS PAGE LEFT INTENTIONALLY BLANK]
