**CONFIRMATION OF ASSIGNMENT OF INVENTIONS**  
**AND RELATED PATENT RIGHTS**

WHEREAS:

**LEE, Yee-Chun**  
20 Robert Place  
Millbrae, CA 94030  
USA

**WONG, Donald Ho-Yin**  
4638 Elm Street,  
Vancouver, British Columbia  
Canada V6L 2L2

(each, an "Assignor", or collectively, the "Assignors"), whose full post office addresses are set out above, are the inventors of certain inventions or improvements (the "Inventions") described and/or claimed in:

- United States patent application serial No. 61/896,124 entitled **SOFTWARE-DEFINED ELECTRIC MOTOR** filed on 27 October 2013; and
- United States patent application serial No. 14/525,182 entitled **SOFTWARE-DEFINED ELECTRIC MOTOR** filed on 27 October 2014;  
(the "Applications"),

AND WHEREAS, **Moovee Innovations Inc.**, (the "Assignee") whose full post office address 618 East Kent Avenue, Suite 103, Vancouver, British Columbia, Canada V5X 0B1, wishes to confirm that it owns the entire worldwide right, title and interest in and to: the Inventions, the Applications, and all patents which may be granted on or as a result thereof in all countries;

In consideration of ONE (\$1.00) DOLLAR and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each Assignor confirms that he or she has done previously and, to the full extent that he or she has not done so previously, does hereby sell, assign, transfer and set over to the Assignee the entire worldwide right, title and interest in and to:

- the Inventions;
- the Applications;
- all continuations, divisions, renewals of, or substitutes for the Applications;
- the right to file counterparts to the Applications in all countries and regions;
- the right to claim priority from the Applications in all countries and regions;
- each and every additional application that claims any part of the Inventions;
- each and every additional application that is in any way based on or claims priority from or correspond to the Applications;
- all patents which may be granted on or as a result thereof; and
- any reissue or reissues of such patents;

the same to be held and enjoyed by the Assignee, its successors, assigns, nominees, or legal representatives, to the full end of the term or terms for which such patents respectively may be granted, reissued, or extended, as fully and entirely as the same would have been held and

enjoyed by the Assignors, had this Assignment, sale, and transfer not been made. If there are two or more Assignors, the sale, assignment, and transfer is made both jointly and severally.

Each Assignor hereby covenants that he or she: has full right to convey the entire interest herein assigned; has not encumbered the rights and properties transferred by this Assignment in any manner; has not executed and will not execute any agreement to transfer any rights in the Inventions and/or the Applications to anyone other than the Assignee; and has not executed and will not execute any agreement that is otherwise in conflict herewith.

Each Assignor promises that he or she shall:

- each time a request is made and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title to the Inventions, the Applications, and the patents in the Assignee, its successors, assigns, nominees, or legal representatives;
- each time a request is made and without undue delay execute and deliver such additional papers the Assignee considers to be necessary or desirable for use in: prosecution of the applications; interference proceedings involving the applications or patents; oppositions involving the applications or patents; applications to reissue or re-examine the patents; or filing additional applications to protect the Inventions in any country;
- communicate to the Assignee, or its nominees, all known facts respecting the Inventions, the Applications, and said patents and assist in the ascertainment of facts and the production of evidence relating to the Inventions, the applications, or the patents;
- testify in any legal proceedings;
- sign all lawful papers;
- execute all disclaimers and divisional, continuing, reissue, and foreign applications;
- make all rightful oaths; and
- generally to do everything possible to aid the Assignee, its successors, assigns, nominees, and legal representatives to obtain and enforce for its or their own benefit, proper patent protection for the Inventions in all countries;

all at the expense, however, of the Assignee or its successors, assigns, nominees, or legal representatives.

Each Assignor hereby irrevocably designates and appoints the Assignee and its duly authorized officers and agents, and their successors, as his or her agents and attorneys-in-fact, to act on the Assignors' behalf and instead of the Assignors, to execute and file applications to patent the Inventions in all countries, and to do all other proper lawfully permitted acts to further the

assignment, prosecution, and issuance of patents for the Inventions with the same legal force and effect as if executed by the Assignors. This power of attorney shall be deemed coupled with an interest and is irrevocable.

Each Assignor hereby authorizes and requests any official of any country or countries whose duty it is to issue patents on applications to issue to the Assignee, its successors, assigns, nominees, or legal representatives all patents for the Inventions in accordance with the terms of this Assignment.

This Assignment may be executed in counterparts and delivered by facsimile or email, each of which shall constitute an original document and all of which, taken together, shall constitute one and the same instrument.

EXECUTED at Millbrae, CA, USA, this 4<sup>th</sup> day of Jan, 2015.  
(city) (province/state) (country) (date) (month)
