ASSIGNMENT

THIS ASSIGNMENT made by James P. Williams, Jr. of Carefree, Arizona, Assignor, to MEPS Real-Time, Inc., a Delaware corporation, Assignee, having a place of business at 6451 El Camino Real, Suite C, Carlsbad, California 92009.

WHEREAS, Assignor has invented a new and useful SYSTEM AND METHOD FOR TRACKING MEDICAL ITEMS AND IDENTIFYING ITEM CHARACTERISTICS (the "invention"), for which an application for United States Letters Patent was filed on March 31, 2014 and has Application No. 14/231,513 (the "application"); and

WHEREAS, Assignor believes himself to be the original, first, and joint inventor of the invention disclosed and claimed in the applications for Letters Patent; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to the invention, the applications, and any Letters Patent that may be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for the sum of ten dollars (\$10) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assign, and transfers to Assignee, the entire right, title, and interest in and to the invention, the application, any additional applications directed to said invention, any applications derived from the application or claiming priority thereto, and any Letters Patent that may be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.
