UNITED STATES PATENT AND TRADEMARK OFFICE

DECLARATION OF GIOVANNI PALMA IN SUPPORT OF  
ASSIGNMENT CORRECTIONS OF U.S. PATENT NOS. 7,883,212; 8,328,361;  
and 8,177,368

1 I, Giovanni Palma, declare as follows:

2 1. I am a citizen of Italy and currently residing in Briosco, Italy. I have  
3 personal knowledge of the facts contained herein and if called upon to do so, could and  
4 would testify truthfully and competently with respect thereto.

5 2. On 10 September 2013, I incorporated Musion Das Hologram Limited  
6 ("MDH") under the laws of the United Kingdom, having a principal place of business  
7 at Westcott House, 35 Portland Place, London, UK W1B 1QF. I am the sole director of  
8 MDH.

9 3. On October 14, 2014, I changed the legal name of my company,  
10 Musion Das Hologram Limited to MDH Hologram Limited (still, "MDH").

11 Title to U.S. Patent No. 7,883,212

12 4. I, on behalf of MDH, submitted offers to the Joint Administrators of  
13 Musion Systems Limited ("MSL") for the purchase of MSL's business and assets,  
14 including U.S. Patent No. 7,883,212 ("the '212 patent"), titled "Projection Apparatus  
15 and Method for Pepper's Ghost Illusion," on September 2013. The Administrators  
16 accepted MDH's offer and entered into a sales agreement on 18 September 2013. The  
17 purchase was completed on 26 September 2013. Accordingly, MSL assigned all right,  
18 title, and interest in the '212 patent, including any and all patents granted on any  
19 division, continuation, continuation-in-part and reissue of the '212 patent, to MDH on  
20 26 September 2013 and properly recorded the assignment with the USPTO on 11  
21 November 2013 under reel: 0316615 frame: 0800. MDH has been and continues to be  
22 the correct owner of the '212 patent. A true and correct copy of the USPTO certified  
23 assignment record is attached as Exhibit A.

24 5. I recently discovered that an incorrect record of assignment was  
25 recorded under reel: 033202 frame: 0754 with the USPTO on 17 June 2014, for the  
26 '212 patent. According to the purported record of assignment, the '212 patent was  
27 purportedly assigned on 29 May 2013, by Ian O'Connell (purportedly acting on behalf  
28

1 of MSL) as assignor to himself, Ian O'Connell, on behalf of Musion IP Limited  
2 ("MIP") as an assignee. To the extent this purported assignment was actually executed  
3 in May 2013, it remained hidden from the public for 13 months. In the interim, as  
4 explained above, MDH acquired the '212 patent and properly recorded the assignment  
5 thereto.

6 6. I understand that 35 U.S.C. § 261 protects bona fide purchaser like  
7 MDH. Indeed, an unrecorded assignment, such as the one purportedly executed on 29  
8 May 2013, by Ian O'Connell, is void against any subsequent purchaser for valuable  
9 consideration, without notice. MDH acquired all right, title, and interest in the '212  
10 patent, including any and all patents granted on any division, continuation,  
11 continuation-in-part and reissue of the '212 patent without notice, because Mr.  
12 O'Connell's improper assignment of the '212 patent to his new company was neither  
13 recorded within three months from 29 May 2013, as required by law, nor was it  
14 recorded prior to MDH's acquisition and record of assignment.

15 7. The true chain of title for the '212 patent, including any and all patents  
16 granted on any division, continuation, continuation-in-part and reissue of the '212  
17 patent, is as follows:

- 18 • On 8 September 2006, co-inventor Ian O'Connell assigned the  
19 entire right, title and interest of the '212 patent, including any and  
20 all patents granted on any division, continuation, continuation-in-  
21 part and reissue of the '212 patent to MSL. On 11 September 2006,  
22 co-inventor James Rock assigned the entire right, title and interest  
23 of the '212 patent, including any and all patents granted on any  
24 division, continuation, continuation-in-part and reissue of the '212  
25 patent to MSL. The assignment was recorded on 21 October 2006,  
26 under reel: 018419 frame: 0258. A true and correct copy of the  
27 USPTO certified assignment record is attached as Exhibit B.

1                   \* On 26 September 2013, MSL assigned the entire right, title, and  
2                   interest in the '212 patent, including any and all patents granted on  
3                   any division, continuation, continuation-in-part and reissue of the  
4                   '212 patent to MDH. This assignment was recorded on 11  
5                   November 2013, under reel: 0316615 frame: 0800.

6           8.       The true chain of title of the '212 patent should not be considered  
7           altered by the 29 May 2013 assignment by Ian O'Connell. MDH has been and  
8           continues to be the correct owner of the '212 patent, including any and all patents  
9           granted on any division, continuation, continuation-in-part and reissue of the '212  
10          patent.

11                                   Title to U.S. Patent No. 8,328,361

12          9.       U.S. Patent No. 8,328,361 ("the '361 patent"), titled "Projection  
13          Apparatus and Method for Pepper's Ghost Illusion," is a continuation of the '212  
14          patent. Ian O'Connell and James Rock are the named inventors on the '361 patent.  
15          Messrs. O'Connell and Rock conveyed to MSL "the entire right, title, and interest in  
16          [the '212 patent] and application throughout the United States of America, including  
17          any and all patents granted on any division, continuation, continuation-in-part and  
18          reissue of [the '212 patent]" in accordance with the '212 patent assignments executed  
19          on 8 September 2006 and 11 September 2006, respectively. *See Exhibit B.* As a result,  
20          the inventors also conveyed all right, title, and interest in the continuation '361 patent  
21          to MSL. Subsequently, MSL assigned all right, title, and interest in the '212 patent,  
22          including the '361 patent to MDH on 26 September 2013. MDH has been and  
23          continues to be the correct owner of the '361 patent. *See Exhibits A and B.*

24          10.       Inventors O'Connell and Rock erroneously purported to convey the  
25          right, title, and interest of the '361 patent to MIP in an assignment recorded under reel:  
26          025955 frame: 0038. Mr. O'Connell executed the assignment in 10 March 2011, and  
27          Mr. Rock in 22 February 2011. Because inventors O'Connell and Rock had already  
28

1 conveyed all right, title, and interest they had in the '361 patent (through the '212  
2 patent assignment) in 2006, they no longer had any right, title, or interest in the '361  
3 patent when they purported to convey that patent to MIP in 2011. Therefore, the  
4 purported February and March 2011 assignment of the '361 patent by Messrs. Rock  
5 and O'Connell to MIP was void.

6 11. The true chain of title for the continuation '361 patent is as follows:

- 7 • On 8 September 2006, co-inventor Ian O'Connell assigned the  
8 entire right, title and interest of the '212 patent, including the  
9 continuation '361 patent to MSL. On 11 September 2006, co-  
10 inventor James Rock assigned the entire right, title and interest of  
11 the '212 patent, including the continuation '361 patent to MSL. The  
12 assignment was recorded on 21 October 2006, under reel: 018419  
13 frame: 0258.  
14 • On 26 September 2013, MSL assigned the entire right, title, and  
15 interest in the '212 patent, including the continuation '361 patent to  
16 MDH. This assignment was recorded on 11 November 2013, under  
17 reel: 0316615 frame: 0800.

18 12. The true chain of title of the '361 patent should not be considered  
19 altered by the erroneous assignment recorded under reel: 025955 frame: 0038. MDH  
20 has been and continues to be the correct owner of the '361 patent.

21 **Title to U.S. Patent No. 8,177,368**

22 13. U.S. Patent No. 8,177,368 ("the '368 patent"), titled "Projection  
23 Apparatus and Method for Pepper's Ghost Illusion," is a divisional of the '212 patent.  
24 Ian O'Connell and James Rock are the named inventors on this patent. As explained  
25 above, Messrs. O'Connell and Rock conveyed to MSL "the entire right, title, and  
26 interest in [the '212 patent] and application throughout the United States of America,  
27 including any and all patents granted on any division, continuation, continuation-in-  
28

1 part and reissue of [the '212 patent]" in accordance with the '212 patent assignments  
2 executed on 8 September 2006 and 11 September 2006, respectively. *See Exhibit B.* As  
3 a result, the inventors also conveyed all right, title, and interest in the divisional '368  
4 patent to MSL. Subsequently, MSL conveyed the entire right, title, and interest in the  
5 '368 patent to MDH in 2013. MDH has been and continues to be the correct owner of  
6 the '368 patent.

7 14. Inventors O'Connell and Rock erroneously purported to convey right,  
8 title, and interest of the '368 patent to MIP in an assignment recorded under reel:  
9 025910 frame: 0201. Mr. O'Connell executed the assignment on 15 February 2011 and  
10 Mr. Rock on 14 February 2011. Because inventors O'Connell and Rock had already  
11 conveyed all right, title, and interest they had in the divisional '368 patent (through the  
12 '212 patent assignment) in 2006, they no longer had any right, title, or interest in the  
13 '368 patent when they purported to convey that patent to MIP in 2011. Therefore, the  
14 purported assignment of the '368 patent by Messrs. Rock and O'Connell to MIP in  
15 February and March 2011 was void.

16 15. The true chain of title for the divisional '368 patent is as follows:

- 17 • On 8 September 2006, co-inventor Ian O'Connell assigned the  
18 entire right, title and interest of the '212 patent, including the  
19 divisional '368 patent to MSL. On 11 September 2006, co-inventor  
20 James Rock assigned the entire right, title and interest of the '212  
21 patent, including the divisional '368 patent to MSL. The assignment  
22 was recorded on 21 October 2006, under reel: 018419 frame: 0258.
- 23 • On 26 September 2013, MSL assigned the entire right, title, and  
24 interest in the '212 patent, including the divisional '368 patent to  
25 MDH. This assignment was recorded on 11 November 2013, under  
26 reel: 0316615 frame: 0800.

16. The true chain of title of the '368 patent should not be considered altered by the erroneous assignment recorded under reel: 025910 frame: 020. MDH has been and continues to be the correct owner of the '368 patent.

I declare under the penalty of perjury under the laws of the United States of America that the foregoing is true and correct to the best of my knowledge.

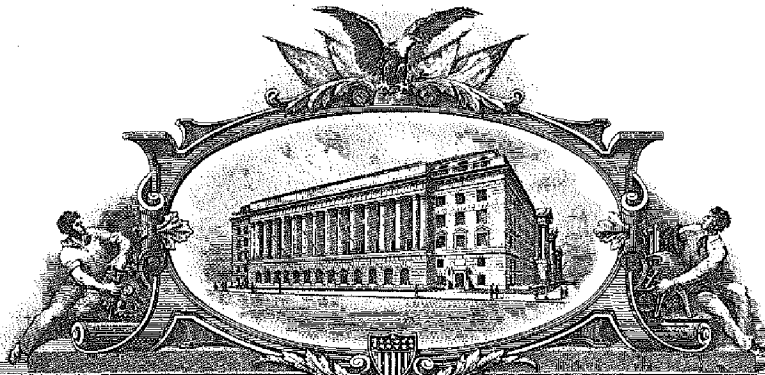

Executed at London, on this 25 day of November 2014.
