each an ASSIGNOR, is an inventor of the invention in **STENT-MESH
ASSEMBLY AND METHODS**, for which an application for a Patent of the United
States was filed on **January 8, 2015** as **U.S. Application No. 14/592,714**;

WHEREAS, **INSPIREMD, LTD.** (ASSIGNEE), a company incorporated
and existing under the laws of Israel, with offices located at 3 Menorat Hamaor

right, title, and interest in, to and under said invention, the said application and
corresponding applications worldwide;

NOW, THEREFORE, in exchange for good and valuable consideration to
the inventor, the receipt and sufficiency of which is hereby acknowledged, the
ASSIGNOR has sold, assigned, transferred and set over, and by these presents
does hereby sell, assign, transfer and set over, unto the said ASSIGNEE, its
successors, legal representatives and assigns, his or her entire, worldwide right,
title and interest in, to and under the invention, including the above United States
non-provisional application embodying the invention or any other United States
application to which priority is claimed under 35 U.S.C. § 119 and to any
application to which priority is claimed, or claiming priority to the application
noted above, under 35 U.S.C. § 120, including all divisions, continuations, and

industrial property protection, including, without limitation, all applications for
patents, utility models, and designs which may hereafter be filed for said
invention in any country or countries other than the United States, together with
the right to file such applications and the right to claim for the same the priority
rights derived from said United States application under the Patent Laws of the
United States, the International Convention for the Protection of Industrial

Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all forms of industrial property protection, including, without limitation, patents, utility models, inventors' certificates and designs which may be granted for the invention in any country or countries foreign to the United States and all extensions, renewals and reissues thereof, the same to be held and enjoyed by the ASSIGNEE, for its own use and behalf and the use and behalf of its successors, legal representatives, and assigns, to the full end of the term or terms for which Letters Patent or Patents may be granted as fully and entirely as the same would have been held and enjoyed by the ASSIGNOR had this sale and assignment not been made;

And ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any Official of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of industrial property protection on applications as aforesaid, to issue the same to the ASSIGNEE, its successors, legal representatives and assigns, in accordance with the terms of this instrument;

And ASSIGNOR hereby covenants and agrees that he or she has the full right to convey the entire interest herein assigned, and that he or she has not executed, and will not execute, any agreement in conflict herewith;

And ASSIGNOR hereby further covenants and agrees that he or she will communicate to the ASSIGNEE, its successors, legal representatives and assigns, any facts known to him or her respecting said invention, testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, reissue and foreign applications, make all rightful oaths, and generally do everything possible to aid the ASSIGNEE or, its successors, legal representatives and assigns, to obtain and enforce proper protection for said invention in all countries;
