**ASSIGNMENT**

WHEREAS, We, Michael MARASH and Michael SHPUNT have invented one or more improvements in

**APPARATUS AND METHOD FOR PROVIDING PATIENT IMAGING**

described respectively in Patent Cooperation Treaty patent application S/N PCT/IL2013/050804 which claims priority from US Provisional Application 61/706.791 filed 28 September 2012; and

WHEREAS, P-CURE Ltd. (hereinafter "ASSIGNEE"), a corporation organized and existing under the laws of the State of Israel, and having a usual place of business at Abba Hillel Silver 12, Lod, 7129409, Israel desires to acquire an interest therein, in accordance with agreements duly entered into with us;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, and the sum of \$10 (Ten U.S. Dollars), the receipt all of which is hereby acknowledged, and without expectation of any further compensation whatsoever, We have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, my entire right, title and interest in and throughout all countries in the world, in and to the inventions described in said application, together with our entire right, title and interest in and to said application and such Patents as may issue thereon or claim priority under international convention, including but not limited to continuations, divisionals, reissues, and reexaminations of said application of such Patents; said inventions, applications and Patents to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Patents may be granted as fully and entirely as the same would have been held by me had this assignment and sale not been made; We hereby convey all of my rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Patents. We hereby acknowledge that this assignment, being of our entire right, title and interest in and to said invention, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Patents by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all Patents to ASSIGNEE for its own name as assignee of our entire right, title and interest therein.

CONTINUED PAGE 2

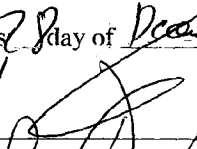

AND, We hereby further agree for ourselves and our executors and administrators to execute upon request and without further consideration, any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including: the execution of applications for patents in foreign countries; the execution of substitution, reissue, divisional or continuation applications; and preliminary or other statements or the giving of testimony in any interference or other proceeding in which said invention or any application or patent directed thereto may be involved.
