ASSIGNMENT

WHEREAS, I, Robert J. Geertsen, of Pasco, Washington, have invented a certain invention, entitled APPARATUS AND METHOD FOR SILICON POWDER MANAGEMENT, for which U.S. Patent Application No. 14/536,496, was filed on November 7, 2014.

WHEREAS, REC Silicon Inc, a corporation organized under the laws of the State of Delaware, having a place of business at 3322 Road N NE, Moses Lake, Washington 98837, owns an interest in the invention and patent application and desires to make its ownership of record with the U.S. Patent and Trademark Office:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, I, Robert J. Geertsen, acknowledge that all my interest in the invention and patent application has been assigned to REC Silicon Inc, acknowledge that REC Silicon Inc owns the invention and patent application, and hereby sell, assign, and transfer to REC Silicon Inc, the full and exclusive right, title, and interest in and to said invention, patent application, and patent rights throughout the world, including foreign patent priority rights, the right to file and prosecute International Applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; said invention, patent applications, and letters patent in this or any foreign country, and all corresponding non-provisional applications, divisions, continuations, continuations-in-part, reissues, and extensions thereof, to be held and enjoyed by REC Silicon Inc, for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted by the United States or any foreign country, as fully and entirely as the same would have been held by me had this assignment and sale not been made, and covenant that I have full right so to do, and agree that I will communicate to REC Silicon Inc, or its successors and assigns, any facts known to me respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, and reissue applications, make all rightful oaths, and do everything possible to aid REC Silicon Inc, its successors, and assigns to obtain and enforce proper patent protection for said invention in the United States or any foreign country.
